GLADIOLI DESERVE A BETTER PLACE IN OUR KENYA GARDENS

The climate of East Africa, especially the Highlands of Kenya offers such a wide range of possibilities for garden lovers that it is time to consider individual classes of plants to be treated separately. In this article it is intended to draw the attention to one of our most beautiful plants, the gladiolus.

During the past few days I have had enquiries from gardeners who are keen to know more about the gladiolus. It is a very hardy plant and it is not difficult to grow. It is a very hardy plant and it is not difficult to grow. It is a very hardy plant and it is not difficult to grow.

Sisal Means Dollars—But Groundnuts Food

DISCUSSIONS between the delegation of sisal growers and the British Government started here last week.

The main emphasis of the delegation and a special water will be kept on the Minister of Food, who is all too concerned with dollars than with maintaining the British market for sisal. It is an almost universal African demand and it is thought that the Government will be prepared to accept a 10 per cent increase in the price of sisal.

Labour and Machinery The delegation of sisal growers is not a union, however, it is a body of producers. A present report of the Ministry of Agriculture, London, says that the sisal industry in Kenya is worth £10 million a year.

EMPIRE FOREIGN SECRETARY ANTHONY EDEN, now deputy leader of the British Conservative Party, yesterday told the party's fifth annual Congress at Brighton that the way out of Britain's economic crisis depended on immediate steps to stop inflation, an initiative drive to boost production, the development of overseas markets, and a permanent Empire policy.

Addressing the 3,000 delegates, Mr. Eden declared it was impossible to exaggerate the significance of the Empire.

Mr. Eden's speech was warmly received by the delegates. He said that the Government's policy was to stop inflation, to boost production, to develop overseas markets, and to maintain a permanent Empire policy.

It's The Evening Dress Problem

HAPPY BRIDES

COMING out on board ship, I was told by an "old sweat" that the height of fashion in East Africa was to be invited to a suspicious occasion one always wore evening dress. Alas, I have lived but not learnt since then.

Mostly has been written on what their women should wear for short skirts, whether even those in black or white, thick or thin, but when a woman should wear evening dress appears to remain problem-child at any rate in East Africa.

AFTER a week in the Colony we were laddie to dine with the "old sweat" and I had the opportunity of seeing what "just the old" was like. I was told that the "old sweat" was a woman who had been in the Government's service for many years. On entering the room there was an awkward silence. I tried to say something funny to say but failed and was subjected to a scolding. I was told that the "old sweat" was a woman who had been in the Government's service for many years. I was told that the "old sweat" was a woman who had been in the Government's service for many years.

THE following week we received a similar invitation. This time a national social register and an answer before I had time to think. I did not see to see a few minutes have required whether "short" or "long" was to be the order of the day, but our hostess had no telephone and we had to go to the house. I had not seemed to have had no difficulty in finding what I should wear. I was told that the "old sweat" was a woman who had been in the Government's service for many years.

Festival Stars Made Just One Criticism

FRANKFURT International Festival of Music and Drama is over and the universal verdict is that it has been a disappointing success. The critics and the kings have departed, impressions they have made will remain with us for a long time not only on the head of the festival but on the head of the festival itself. It has been a long time since the festival has been so successful in its own right.

It is a pity that the festival has been so successful in its own right. It is a pity that the festival has been so successful in its own right. It is a pity that the festival has been so successful in its own right. It is a pity that the festival has been so successful in its own right.
