BISHOP AT ODDS WITH PRIMATE
Over his book on Christianity

BISHOP Barnes of Birmingham has risen quickly to the defence of his book, "The Christian Church in the World," which he has just published. He has criticised the validity of the virgin birth, Christ's physical resurrection, His miracles and His baptism.

New seventy-three copies of the book have been ordered by the figure of Dr. Barnes denied in the "Punch" office of Convocation the publication of the book. Dr. Geoffrey Fisher, Archbishop of Canterbury, has also written to Dr. Barnes, with the doctrine of the Church of England.

Dr. Fisher had no intention of reading the book and had declared, "If I saw your name in the paper, I should not read it." He has, however, read it and has written to Dr. Barnes, "I have read your book and I find it very interesting. I have read it and I find it very interesting. I have read it and I find it very interesting."

Indian Customs man acquitted of two corruption charges

LITTLE over half an hour after his advocate had submitted the case to the Nairoi Indian customs officer, Rowland Bhambhani Patel, was yesterday acquitted of two charges of corruption.

Defense counsel Mr. Manoj Singh submitted to Resident Magistrate F. Roberts, contended that the prosecution case ultimately failed to establish the guilt of the accused.

The evidence showed that Patel had received a bribe of Rs. 100 from a merchant to allow him to import goods without paying the duty. Patel had received a bribe of Rs. 100 from a merchant to allow him to import goods without paying the duty.

FORT HALL DISTURBANCE - NEW STEP

ACTING in his magisterial capacity, the District Commissioner of the Fort Hall district held an inquest into the cause of death of Edward Mwangi which occurred during the disturbance in Location 8 on September 25.

In view, however, of the fact that it is desirable to fix the exact date of the death of Edward Mwangi, the District Commissioner has decided to hold a second inquest into the cause of death of Edward Mwangi which occurred during the disturbance in Location 8 on September 25.

Lake Rudolf lies in a desolate country of watered rocks and lava debris

ONE OF THE LARGEST in the chain of African lakes, Rudolf was first seen by European eyes in 1818, when Count Tschudi and his companion, Von Heintz, tracked northward on their expedition from the east coast of the Indian Ocean.

Major John A. G. Reade, a British officer, was the first to see the lake in 1890. He was on a mission to the north of the lake, and he was the first to see the lake in 1890. He was on a mission to the north of the lake, and he was the first to see the lake in 1890.

BOB MARTIN SAYS:
"Is your dog as fit as he might be?"

REAL FITNESS can make all the difference in the cheery companionship which your dog wants to give you. Add a sure way of bringing him to the top of his form — the way which leading breeders follow and recommend — to his regular conditioning with any Condition Powder.

To a large extent, a dog's health depends on the purity of his blood; but a deteriorated life depends also on the blood particles found in his veins and herbs.

Bob Martin's Condition Powder helps to purify the blood, correct the liver, strengthen the kidneys, stimulate the circulation, and balance the system. It contains a balanced proportion of vitamins and minerals which are easily absorbed by all dogs. Given regularly, "Bob Martin's" will do much to maintain your dog in steady health and high vigour. See your dog and judge by the results.

You can get Bob Martin's Condition Powder and other preparations for dogs from:

USAMBARAS PROTEST AGAINST NEW LABOUR CONTROL SCHEME

Draft Ordinance causes 'grave concern' to farmers and small employers of labour

CRITICISM of the Tanganyika Government's proposals for setting up a Commission for the control and recruitment of labour, and its suggested powers, which is described as "a very dangerous proposal," was voiced by the chairman of the Usambara Association, Mr. Yawers-Haviland, at a well attended meeting of the Association at Lushoto last week.

At a preliminary session in Dar es Salaam at the end of July, and Mr. Yawers-Haviland, who was elected to represent the Usambara Association, said that the Commission would be a very dangerous proposal, and that it would be a very dangerous proposal to set up a Commission for the control and recruitment of labour, and its suggested powers, which is described as "a very dangerous proposal," was voiced by the chairman of the Usambara Association, Mr. Yawers-Haviland, at a well attended meeting of the Association at Lushoto last week.

WHY BURY THE GOODNESS ON THE SOIL'S SURFACE?

Good farming the answer to erosion

GOOD farming is the only permanent cure for the soil erosion which is afflicting the Rhodesia. In an article in a recent issue of "The Rhodesian Farmer" (September 1954), which is reported in the February issue of "The Rhodesian Farmer" (February 1954), the author writes that the Rhodesian farmer should be aware of the fact that the soil is a very valuable asset and that it should be treated as such.

AFRICANS TO ACT AS ROAD GUARDS

A RESERVE District Council meeting held at Nairobi on Monday afternoon was presided over by Mr. Frank Probyn, who stated that Africans should be employed as road guards.

The suggestion arose when Mr. Probyn was talking over a discussion on the employment of the police in controlling traffic on the roads, especially during the rains.

Mr. P. W. Henson, who had said that there had been a lack of assistance from the police in the Thimbaru Falls area.

Mr. Probyn said that although it was the problem that he was ready to accept, the District Council should consider the appointment of African road guards to act as road guards until actual legislation could be done by the police.

Jobs for two

By a vote of four to two it was agreed to employ two Africans in this district. The plan is to have two men working, although it had been suggested that the two men should themselves act as traffic inspectors.

Carried unanimously was a motion that the District Council should be empowered on the body which will be formed to investigate the Commission for Local Government had reported that the whole question was to be considered at a high level.

These roads

Government's decision to turn down the recommendation of the Boundary Commission with regard to certain alterations in the Provincial boundaries of the Rift Valley and Central Provinces—especially because of the alleged lack of reliable communications between the Central and Rift Valley Provinces—was discussed at a recent meeting of the Government's Public Administration Council.

The Council also agreed to submit to the Legislative Council a Bill to amend the expenditure of £12,000 on the roads in the district. They were completely agreed with the view in a resolution from the District Co-ordinating Committee—which originated with the Municipal Council, Nairobi—that the P.W.D. had over-estimated the work to be done. The Government was asked to do as much as possible.

Overshadowed

Cape Town's limit of 110 ft. of city buildings shading an area more than 20 miles wide and extending to 120 ft.

When an architect applied to increase the height of a city building above 110 ft. the City Engineer reported that regarding the effect of shadows cast by buildings in the area, the increase to 120 ft. could be justified on the basis of the City of Ventilation value (C.A.P.A.).

Africans show their work

Kovya Farmers' Cattle & Poultry Penitentiary Club and Akiba Penitentiary Society, which is organized entirely by Africans, held its first show on September 19th.

The exhibits included agricultural produce, cattle and handicrafts, and there were displays of drill and dancing.

The sum of £221.10 was obtained as prize money, but the standard of the exhibits was rather disappointing. The organizers however feel confident that if future shows will see a great improvement both in quantity and quality.

There were 1,400 visitors—Africans, Europeans and Asians—in the three days, amongst them were Mr. J. M. Trade Commissioner for the District of North Africa and Mrs. Hilda M. Pace and friends from Nairobi, Dr. C. R. P. from Mombasa, Inspector James Jones of the Kenya Police, Mr. H. G. M. of the Club, Mr. W. L. of the Club, and Mr. L. of the Club.

WEDDING WITHOUT PRECEDENT

One of the interesting things about the wedding of Princess Elizabeth is that there is no exact precedent for the marriage of Queen Victoria to Prince Albert took place when she was 18 years old and Prince Albert was 21.

The wedding of the Queen, like Queen Victoria and Prince Albert, was held in the Chapel Royal, White Hall, London, on January 10, 1923.

No Court Dress

The first general order given by the King about the wedding of the Queen was that, although the Queen was to wear a full dress, the King was to wear a full dress, and the bridesmaids and bridesmaids were to wear a full dress.

Invitation problems

Countess of Devon and Viscountess of Devon are being invited to the wedding of the Queen, but the Countess of Devon is being invited to the wedding of the Queen, but the Countess of Devon is being invited to the wedding of the Queen.

Gold Coast plans for development

The Gold Coast Government has approved a programme to set up a Gold Coast Industrial Development Corporation.

Its purpose is to establish industrial plants based on agricultural products, and to develop the productivity of the Gold Coast.

THE YOUTHFUL HIPPO-HUNTERS OF LAKE JIPE

(Not forgetting the dog)

WHEN we were first started, and were very young, and very enthusiastic about hunting hippos on Lake Jipe, we were told that we should not use a gun, but a spear. This was because the hippos were so tame that they would not be afraid of a spear. We were told that we should use a spear, and we did so for some time. We were told that we should use a spear, and we did so for some time.

By
MERRELL DALTON

At the time neither of us could swim, and we were told that we should not use a gun, but a spear. This was because the hippos were so tame that they would not be afraid of a spear. We were told that we should use a spear, and we did so for some time.

Each time we went out, we were told that we should use a spear, and we did so for some time. We were told that we should use a spear, and we did so for some time.

When the hippo saw us, it would charge at us, and we would throw our spears at it. We were told that we should use a spear, and we did so for some time.

THE HIPPO-HUNTERS (cont.)

'Then there was nothing to do but wait : :'

effect deep unconsciously. And the objection to the wild hippo hunt was the untidy, noisy of the camp, both of which made it so that it would be a real, steady state. The best, however, may have been that it is impossible to tell the difference between the noise of the hippo and the noise of the camp, but you get a low fee from a hippo.

'THE FIRST shot must have gone wide for we heard the whistle of the bird, every hippo disappeared, and a loud cry was heard. The hippo had been shot, but presently they were down, the old bull ran to the left, and the hippo was seen again, suggesting his old bull. The hippo was shot, and the hippo was seen again, suggesting his old bull.

There was a moment of quietude, but it was in reality but a brief respite. The hippo was seen again, suggesting his old bull. The hippo was shot, and the hippo was seen again, suggesting his old bull.

'Adventure'

This is the real danger and excitement of the hunt. The hippo was shot, and the hippo was seen again, suggesting his old bull.

TRANS NZOIA

Pig producers want more: their costs have gone up

A resolution calling for an increased return to the producer in view of the increased cost of production was carried at a meeting of increased pig producers in the Trans-Nzoiia area which it was also resolved that the district should ask for representation on the board of Uplands Dairy Factory.

The first resolution was followed by a discussion on marketing and kindred subjects.

Mr. Letcher said that the meeting had been set by Government to investigate the marketing of the Pakenham hams, which would be the first step in the plan to sell the hams in the United Kingdom. It was suggested that the marketing should be done through the Dairy Board. Mr. Letcher said that the hams had been sold in the United Kingdom for a long time and that the price was not as high as it should be. He suggested that the hams should be sold through the Dairy Board and that the price should be increased.

Mr. Letcher said that the hams were all of good quality and that the price was not as high as it should be. He suggested that the hams should be sold through the Dairy Board and that the price should be increased.

Ministry blamed

Mr. Mitchell replied that this was due to the Ministry of Pines, which was not a producer but a processor. He said that the Ministry of Pines was not a producer but a processor and that the price was not as high as it should be. He suggested that the Ministry of Pines should be held responsible for the price of the hams.

Share problem

Col. Brien raised the question of the share problem, which was a problem for the pig producers. He said that the share problem was a problem for the pig producers and that the price was not as high as it should be. He suggested that the share problem should be solved by the pig producers.

Why?

Mr. Gray asked why we were still trying to export to Britain, when we had a surplus of hams. He said that we were still trying to export to Britain, when we had a surplus of hams. He suggested that we should sell the hams in the United Kingdom.

Still waiting

Mr. Kirk queried the distribution of the piglets, which was a problem for the pig producers. He said that the distribution of the piglets was a problem for the pig producers and that the price was not as high as it should be. He suggested that the distribution of the piglets should be solved by the pig producers.

Not enough

Mr. Mitchell said that the price was not as high as it should be. He suggested that the price should be increased.
