Figures? ... Yes? ... they're easy to check. But how many teeth? If you have a full set, you've got 16 to each jaw. And remember, your health is often affected by those teeth—badly, even if you speak to notice their appearance. That's why it's so important to keep them healthy—the best way to do this is to use Odol regularly.

LORD MONTGOMERY SILENT ON FUTURE OF EAST AFRICA

But 'It's a wonderful country for training soldiers': the problem of the peace

Field Marshal Viscount Montgomery, Chief of the Imperial General Staff, has been asked to give his view on the future of East Africa...

He has given no specific answer to a question on whether Kenya would be in fact be under a trusteeship...

He then went on to explain his doctrine of trusteeship. During the past year I worked very much in that direction...

'I maintain a good army has to be paid for. It has to be greater than the sum of its parts. The total strength alone of this and that is not sufficient...

'I am not sure that I can say that I have any special views on the future of East Africa. I have seen the country and I have seen the people...

'I have seen the country and I have seen the people. I have seen the people and I have seen the country. I have seen the people and I have seen the country...

'I have seen the country and I have seen the people. I have seen the people and I have seen the country. I have seen the people and I have seen the country...

'I have seen the country and I have seen the people. I have seen the people and I have seen the country. I have seen the people and I have seen the country...

'I have seen the country and I have seen the people. I have seen the people and I have seen the country. I have seen the people and I have seen the country...

Kenya Government Urged To Think It Over

Food and Fitness

SAURDAY, DECEMBER 15, 1945.

There has been a great deal of concern during the past few years in which the Government has given its attention to the improvement of food and fitness. One of the main reasons for this is that the country has a large population and the Government has to ensure that the people have enough to eat and are fit to work. The Government has been successful in many ways, but there is still much to be done.

Free social services are never properly appreciated, says the Nairobi Chamber of Commerce

SUGGESTIONS that the principle should be established that free social services are never properly appreciated, says the Nairobi Chamber of Commerce.

The committee reports that the public is not fully aware of the value of these services and that they are often taken for granted. It suggests that the Government should make a concerted effort to educate the public on the benefits of these services.

Proved in the United Kingdom

'That this belief is a fallacy' has been amply proved in the United Kingdom and it is a fallacy which should be exposed before the evil effects of it have had time to make themselves more seriously felt.

The committee thinks that the public should be made to understand that free social services are not a burden on the taxpayer, but a benefit that should be appreciated.

Kenya people suspicious of free movement

There are many who are suspicious of free movement and this is a serious matter that needs to be addressed. The Government should take steps to allay these suspicions and ensure that the public understands the benefits of free movement.

The committee suggests that the Government should provide more information and education to the public on the advantages of free movement.

Labour Government

Labour Government has been successful in many ways, but there is still much to be done. The Government should continue to work hard to improve the lives of the people and ensure that they have enough to eat and are fit to work.

The committee suggests that the Government should focus on the most pressing issues and work to solve them as quickly as possible.

Import Control

Import Control is a necessary measure that should be implemented to ensure that the country has enough of the goods it needs. The Government should take steps to improve the import control system and ensure that it is fair and effective.

The committee suggests that the Government should work to reduce the cost of imports and ensure that the public has access to the goods it needs at a reasonable price.

RAF Recruitment

RAF Recruitment is a key area that needs to be addressed. The Government should take steps to attract more young men to the RAF and ensure that they are well-trained and equipped for the challenges ahead.

The committee suggests that the Government should provide more incentives and support for young men who join the RAF.

RAF Recruitment is a key area that needs to be addressed. The Government should take steps to attract more young men to the RAF and ensure that they are well-trained and equipped for the challenges ahead.

The committee suggests that the Government should provide more incentives and support for young men who join the RAF.

'Serious constitutional issues involved': Governor suggests scope for mechanisation

The inalterable position where the instructions of British Government departments other than the Colonial Office are overridden by the Colonial Service and the importance of the sisal industry in British economy were commented on by Mr. E. F. Hitchcock, chairman, at the first annual dinner of the Tanganyika Sisal Growers' Association since 1920, held at the New Hotel, Dar es Salaam, last week. His Excellency the Governor, Sir William Battershill, presiding, said he was fully aware of the industry's importance—and emphasised its need of

very far-reaching legislation which gave the Government the right to take over the industry in the event of its failure. He pointed out that the Government had been unable to secure the necessary legislation for the sisal industry, and that it was now in a position to do so. U.S. ROOPS WILL WITHDRAW FROM PANAMA BASES

'Unwillingness' of Republic to renew leases may lead to building of new Pacific to Atlantic canal

THE UNITED States is to withdraw, "as soon as possible," all troops from the 14 defense bases which the Panama Republic has refused to lease to the United States. This has been announced by the State Department in Washington and, to face the threat which it is considered the "drawdown" will constitute to United States security, the House Appropriations Committee on Defense, is to begin immediately investigation into the possibility of a new canal linking America's Pacific and Atlantic coasts.

The decision to withdraw was taken after the unanimous vote of the Panama National Assembly of the agreement, which would have allowed the United States to occupy the 14 bases for periods of from five to 10 years.

Without a new canal the United States would have had the defense of the Panama Canal on facilities inside the 10-mile wide canal zone.

The State Department announcement declared: "In accordance with oral statements made to the Panamanian Government in the negotiations, the necessary steps will be taken immediately, unless some other arrangement is reached with the Panamanian Government, which would have allowed the United States to occupy the 14 bases for periods of from five to 10 years.

The withdrawal will be completed as quickly as possible consistent with the number of personnel and the amount of material involved."

Agreement had been reached with Panama on the use of military bases, the State Department described these bases as vital to the defense of the canal.

The State Department explained that the United States still remained in possession of the bases, but that the Panamanian Government's unwillingness to renew the leases was not acceptable to the Panamanian people.

The schools broke up KAPTAGAT AND KIKUYU SPORTS AND SPEECHES

PARENTS and friends were entertained by the pupils of Kaptagat School, recently, when the children presented the Story of the Nativity in tableaux, accompanied by a number of carols.

The performance was moving in its simplicity and sincerity. At the optimum period and in the presence of the parents and friends of the school, the children presented the story of the Nativity in tableaux, accompanied by a number of carols. The program of the children in their beautifully worked out clothes was particularly well received.

Before the performance, the very young children, who were in the hands of their mothers and fathers, were singing and reciting. The program of the children in their beautifully worked out clothes was particularly well received. He said that he was glad to see that the staff of the school were so united and that he was glad to see that the staff of the school were so united.

'QUEUE HERE FOR FATHER CHRISTMAS'

IT WILL BE GRIM AND COLD IN BRITAIN THIS YEAR

And prefabricated chimneys are too small

CHRISTMAS will be grim from many points of view. In Europe and Palestine, it will be a time of mourning and grief. In this atmosphere, it is difficult to celebrate Christmas. It is true that the Food Ministry is giving the most careful consideration to the needs of the people, but the fact remains that the Christmas season is a time of hardship and privation. The people are suffering from the effects of the war, and the Christmas season is a time of hardship and privation. To these parasites, the introduction of "Gammoxan" products is like a declaration of total war with atomic weapons. Ticks which challenged arsenic soon perish on coming into contact with Gammoxan Dips. And live faro no better. Beetles, locusts, cabbage aphids and other pests which baffled many a gardener, meet certain death in Agroicide Dusts.
