Prospects of peace in Indonesia are the brightest yet

At a time when Britain is actively creating a new basis of Commonwealth relations, she is bound to be deeply interested in the way other important powers are handling world problems. The news that the "Good Offices" Committee of the United Nations has secured a preliminary agreement between both Indonesians and Dutch in Java was particularly welcome.

advised to step reports of tropical agricultural products

From a Correspondent.
The United States in 1946, recommended by the Agricultural, Mr. Clayton A. Anderson, Secretary of Agriculture, that the country should continue its present policy of maintaining production of agricultural products at a level as high as practicable.

Burmese import regulations

The year 1947, he said, was one of the most important in the American farmer's history. It was a year of record production, and it was a year of record demand. The United States had a surplus of agricultural products, and it was a year of record demand for these products in the United States. The United States had a surplus of agricultural products, and it was a year of record demand for these products in the United States.

Shopping list

The types of imports Mr. Anderson recommended included agricultural products, raw materials, and manufactured goods. He also mentioned the need for certain types of machinery and equipment.

Record year

Mr. Anderson's report said that the income from the sale of agricultural products in the United States had reached a record level. This was due to a combination of factors, including a record harvest and strong demand from both domestic and foreign markets.

The coroner, Mr. J. M. Dwyer, presiding over the inquest, said that the boy had been playing with a gun in the streets of Nairobi. The gun was found near the boy's body, and it was believed that the boy had shot himself.

'Face to face'

Proctor declared that parts of the evidence were in dispute. He said that the boy had been playing with a gun in the streets of Nairobi. The coroner, Mr. J. M. Dwyer, presiding over the inquest, said that the boy had been playing with a gun in the streets of Nairobi.

49 per cent of the cases were fatal

The ports of Alexandria, Port Said, and Suez, with their respective populations of 1,000,000, 1,000,000, and 1,000,000, have been hit by a typhoid epidemic. The epidemic has been spreading rapidly, and it is believed that it has been brought to the ports by a ship from the East Indies.

ALL INDIA WEPT AS THE MAHATMA'S PYRE

Thousands followed 5-mile route and R.I.A.F. planes strewed rose-petals on Gandhi's uncovered face

TENS OF THOUSANDS of people—Hindus, Muslims, Sikhs, Christians, Buddhists and non-believers—many of them weeping, lined the five-mile funeral procession of Mahatma Gandhi on the banks of the holy Ganges River, where he was shot, to the crematorium on the banks of the Royal Indian Air Force dove low to scatter rose-petals over Gandhi's body. The funeral service at the R.I.A.F. was presided over by Aya, one of the grandsons of whose shoulders he had been leaning when he was shot.

The funeral fire has now been allowed to die down and the Government has announced that the ceremonies have ended.

When the cortage reached the crematorium the crowds were allowed to return. A large flag was made to them and the Indian Prime Minister, Pandit Nehru, and the former-General, Field Marshal, were seen in the crowd.

Low-flying R.I.A.F. planes strewed rose-petals on Gandhi's body as he was carried to the crematorium. The funeral fire has now been allowed to die down and the Government has announced that the ceremonies have ended.

Demands for a fourth day of mourning started troubles in Bombay Province. Armed police had to be posted to the mill area in Alambhad, where the workpeople started shouting slogans and throwing stones in an attempt to enforce their demands for another day of mourning.
