# TOURIST ROAD CRITICISED

**Council to inform Ministry**

ONE of the finest tourist attractions in the Nairobi area, the Ngong Hills circular road, was now almost impassable to traffic, it was confirmed at a meeting of Nairobi Urban Council.

Patrons have to stand a good 100 yards away, out of the way during a drive round the Ngong Hills. The road at this point is little more than a narrow track.

## 'Weekend player' beats Krishnan

VIC SEIXAS, an American champion six years ago, but only a weekend player today, provided one of the shock stories of the tennis tournament. New York's amateur player, who had been ranked 100th in the world, defeated the Indian champion, who had been ranked 10th in the world, in the quarter-finals of the tournament.

## THE SUMMIT ELECTION

NONE of the political parties as they are known in Britain today has been returned to power by a general election. The result of the September 15th election is a striking illustration of the political parties and the confidence of the British people in the political system.

The political parties in the House of Commons are the Labour Party, the Conservative Party, the Liberal Party, the Independent Labour Party, the National Labour Party, the National Liberal Party, the National Conservative Party, the National Labour Party, the National Liberal Party, the National Conservative Party, the National Labour Party, the National Liberal Party, the National Conservative Party.

### To the credit of the Conservatives

The Conservative Party has a long and distinguished record of service to the country. It has been the party of the people for many years and its policies have been the basis of the country's progress.

# 'SURGERY' NEEDED TO CUT CITY ROAD CONGESTION

**G**RAMMERS

The Nairobi City Council has a long and distinguished record of service to the city. It has been the body responsible for the city's development and its policies have been the basis of the city's progress.

**G. B. HOBBS** discusses whether Nairobi can afford to present traffic congestion. The ideas he expresses are his personal opinions and have nothing to do with his position as a city councillor.

The city of Nairobi is facing a serious traffic congestion problem. The roads are narrow and the traffic is increasing rapidly. It is time to consider 'surgery' to cut the congestion.

# PROPOSALS FOR LEVEL CROSSINGS

Man fined £5 after collision with train

## R.E.A.A.A. details five-point safety plan to Railways

FIVE proposals to reduce dangers of level crossings were put forward yesterday by the Royal East African Automobile Association, which represents nearly 15,000 motorists.

1. Road level crossings should be abolished and replaced by level crossings with gates.
2. Existing level crossings should be improved by the installation of gates and lights.
3. The presence of a road sign indicating the location of a level crossing should be compulsory.
4. The presence of a road sign indicating the location of a level crossing should be compulsory.
5. The presence of a road sign indicating the location of a level crossing should be compulsory.

### Timely warning from the past

Five years ago, on the 21st of August 1948, the African Standard reported on a collision between a motor car and a train near Nairobi. The driver of the car was fined £5 after the collision. This serves as a timely warning for better care at level crossings.

### Work starting next year on £15,000,000 project

WORK is to begin next year on a £15,000,000 oil refinery, which the Shell Company of East Africa and the East Africa Petroleum Refining Co. Ltd. have decided to construct at Changamwe near Mombasa.

The refinery will be the largest in East Africa and will be the first of its kind in the East African region. It will have a capacity of 10,000 tons per day and will be able to produce a wide range of refined petroleum products.

## OIL REFINERY AT MOMBASA

THE first of the big projects of the Government of Kenya is the oil refinery at Mombasa. The refinery is being built by the British Petroleum Company and is expected to be completed by the end of 1960. It will have a capacity of 10,000 tons per day and will be one of the largest in the East Africa region. The refinery will be situated on the coast of Mombasa and will be connected to the main pipeline from the Indian Ocean. The refinery will be a major asset to the Government and will provide a source of revenue for the Government. It will also provide a source of employment for the local population. The force is made up of boys from all over Britain and is led by a British officer. The force is making a circumnavigation of the globe and is expected to be completed by the end of 1960. The force will be the first British schoolboys' expedition to make a circumnavigation of the globe. The force will be a major asset to the British Government and will provide a source of revenue for the Government. It will also provide a source of employment for the local population.

## W...

The first of a series of expeditions being made this year by the youth of Britain. The expeditions are being made by the British Schoolboys' Expeditionary Force. The force is made up of boys from all over Britain and is led by a British officer. The force is making a circumnavigation of the globe and is expected to be completed by the end of 1960. The force will be the first British schoolboys' expedition to make a circumnavigation of the globe. The force will be a major asset to the British Government and will provide a source of revenue for the Government. It will also provide a source of employment for the local population.

### S. African five-year A-Plan approved

SOUTH AFRICA'S five-year A-Plan has been approved by the House of Assembly in Cape Town. The plan, which is the first of its kind in Africa, provides for a steady increase in production and income over the next five years. It is expected to create 1.5 million new jobs and to increase the country's income by 50 per cent.

The group consists of several men in suits, some of whom appear to be in official capacity. They are standing in a line, possibly during a formal event or meeting.

## NOW IS THE TIME . . .

THE Government has appointed to advise the public on the subject of the new Constitution. It is a matter of great importance and one which affects every citizen. The Commission will be holding public hearings in the various provinces and districts. It is essential that all citizens should make their views known to the Commission. This is the only way in which the new Constitution can be made to reflect the wishes of the people.

Letters to the Editor

## ANGER OVER CROSSINGS

ON the subject of the proposed crossings at Nairobi, the public has expressed its anger. The proposed crossings are seen as a threat to the city's traffic and its future development. It is felt that the crossings will cause congestion and delay, and will be a major obstacle to the city's growth. The public has expressed its anger through various channels, including letters to the Editor and public meetings. It is hoped that the Government will take into account the public's views and will not proceed with the proposed crossings.

### Comparative costs

THE public has expressed its anger over the proposed crossings at Nairobi. It is felt that the crossings will cause congestion and delay, and will be a major obstacle to the city's growth. The public has expressed its anger through various channels, including letters to the Editor and public meetings. It is hoped that the Government will take into account the public's views and will not proceed with the proposed crossings.

### The Boeing 707

THE Boeing 707 is a four-engine jet transport aircraft. It is the largest and fastest of the Boeing family. It is capable of carrying up to 300 passengers and has a range of over 7,000 miles. It is a very popular aircraft for airlines and is used for both domestic and international flights. The Boeing 707 is a very reliable and safe aircraft and is a major asset to the airline industry.

### Nakuru spending

THE Government has announced that it will be spending a large sum of money on the development of Nakuru. This is a very important project and will help to improve the infrastructure of the town. The spending will be used for the construction of roads, bridges, and public buildings. It is hoped that this will help to attract investment and create jobs in the town.

### Telephone titles

THE Government has announced that it will be introducing a new system of telephone titles. This will help to reduce the number of long distance calls and will save money for the public. The new system will be based on the area in which the caller is making the call. It is hoped that this will be a very successful system and will help to reduce the cost of long distance calls.

Eldoret platform**

The leader of The New Kenya Group, Mr. Michael Blundell, and the secretary of the Kenya Independence Movement, Mr. T. J. Mboya, shared a platform at Eldoret yesterday for the first time since the formation of their respective political organisations.

Blundell told the audience that he was not at each other as white black or brown but as

and citizens.

Blundell said: "I have nothing to say to you unless you are white, black or brown but as citizens."

## POLICE KNIFED AS GANG FLEES FROM AMBUSH

A police officer was knifed in the back of the neck as he tried to arrest a gang of thieves in a narrow alleyway in Nairobi yesterday.

The officer, who was on duty in the area, was ambushed by a group of about ten men who were carrying knives and other weapons.

The police officer was injured and taken to hospital, but he is expected to recover. The gang fled the scene in a hurry.

The incident occurred in a busy area of Nairobi, and it is believed that the gang was on their way to a meeting.

The police are currently searching for the gang members and are offering a reward for information that leads to their capture.

# Careful wash pays dividends

**A** SHIRT that has been washed with care and attention will last longer than one that has been washed carelessly.

Hand washing is the best way to wash clothes. It allows you to see the dirt and to wash it out thoroughly. It also allows you to use less soap and water. Hand washing is also easier on your hands than using a washing machine.

# RECORD-BREAKER BY FICYCLE

By SUSAN VAUGHAN

It is not only the beauty of the dress, but the way it is worn that makes it a record-breaker. The woman in the picture has a perfect example of how to wear a dress. She is wearing it with a wide-brimmed hat and a light-colored, short-sleeved dress with a full skirt.

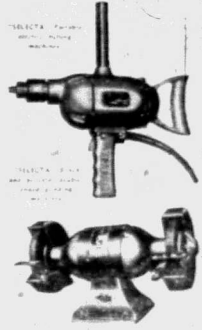

# Frequent brushing the secret of lovely hair

By PATRICIA CUMPTON

A fundamental rule in hair care is to brush your hair frequently. This helps to distribute the natural oils from the scalp through the hair, making it softer and more manageable. It also helps to remove dirt and dandruff from the scalp.

## Pafmeca criticised for not checking relevant facts

**F**ULL support for the policy of the Kenya National Party was expressed in a resolution passed by nearly 25 representatives of political associations throughout Kenya, meeting at Mitoi Arush.

The leaders conference which was called by the African Student Members Organisation, also held in Kenya.

It condemned the decision of the East African Forum Kenya National Party membership of Pafmeca and strongly deplored the counter-organising of the organisation and practical matters come to the fore. The resolution was passed after a long and heated discussion.

### TRADE BAN ABSURD

# Krushchev—family man EX-SHEPHERD BOY REACHED THE TOP

**NIKITA KRUSHCHEV** is the world's most powerful ruler yet little is known of Krushchev the man. He is an orphan.

He holds ultimate power over 215,000,000 people in the Soviet Union—over 80 per cent of the world's population. He is the only man in the world to have been elected to the highest office in the world by popular support. He can be hostile and aggressive when speaking to Western reporters as he is in Moscow, then exhibit a friendly, back-slapping, brotherly attitude towards them.

He was raised up by the name "Shepherd Boy" in the world and not all our readers on Russia yet he has studied with world-famous teachers in Moscow and has been introduced to great and noble spirits of whom he has not known to a fair degree.

### Delicate concessions

The Government has announced a series of concessions to the motor industry. These include a reduction in the tax on new cars and a relaxation of the rules governing the export of cars.

### Should take a point

The Government should take a point for the concessions it has made to the motor industry. These concessions are a welcome sign of the Government's concern for the industry.

# U.S. TO EXAMINE CHANGE IN WOOL QUOTA

## American influences depress Market

LONDON (Special Market) — The wool market has been depressed by American influences, according to a report from the American Wool Growers Association. The report states that the American wool quota has been reduced, which has led to a decrease in the price of wool. The market is expected to remain depressed for some time.

# Venesta to sell foil interests

## World alignment

THE United States has agreed to examine a proposal for a change in the wool quota. The proposal is being considered by the American Wool Growers Association. The change would allow for a larger quota, which would increase the supply of wool. This is expected to lead to higher prices for wool.

World alignment — The wool market is being influenced by world alignment. The American wool quota has been reduced, which has led to a decrease in the price of wool. The market is expected to remain depressed for some time.

Coffee sold out again in Nairobi — The coffee market in Nairobi has seen another day of high demand. The supply of coffee has been sold out, leading to a shortage in the market. This is expected to lead to higher prices for coffee in the future.

World alignment — The wool market is being influenced by world alignment. The American wool quota has been reduced, which has led to a decrease in the price of wool. The market is expected to remain depressed for some time.

**THEATRE-GOER WANTED TO CHANGE HIS TICKETS**

**D**id you know that the theatre-goer who has bought a ticket for a performance and then finds that he cannot attend is often faced with a variety of problems? The first is that of the ticket itself. It may be a non-refundable ticket, or it may be one which is refundable only on the condition that the holder gives notice of his intention to do so a certain number of days before the performance. The second problem is that of the money. If the ticket is non-refundable, the holder is out of pocket. If it is refundable, the holder may have to pay a penalty. The third problem is that of the replacement. If the holder cannot attend, he may want to sell the ticket to someone else. This is often difficult to do, especially if the ticket is for a popular performance. The fourth problem is that of the exchange. If the holder wants to see a different performance, he may want to exchange his ticket. This is often difficult to do, especially if the ticket is for a popular performance. The fifth problem is that of the refund. If the holder wants a refund, he may have to wait a long time for it. The sixth problem is that of the replacement. If the holder cannot attend, he may want to sell the ticket to someone else. This is often difficult to do, especially if the ticket is for a popular performance. The seventh problem is that of the exchange. If the holder wants to see a different performance, he may want to exchange his ticket. This is often difficult to do, especially if the ticket is for a popular performance. The eighth problem is that of the refund. If the holder wants a refund, he may have to wait a long time for it. The ninth problem is that of the replacement. If the holder cannot attend, he may want to sell the ticket to someone else. This is often difficult to do, especially if the ticket is for a popular performance. The tenth problem is that of the exchange. If the holder wants to see a different performance, he may want to exchange his ticket. This is often difficult to do, especially if the ticket is for a popular performance. **Distorted vision**

**W**ith the advent of the new year, many people are suffering from distorted vision. This is often due to the fact that they have not had their eyes checked for some time. It is important to have your eyes checked regularly, especially if you are over 40 years of age. This is because the lens of the eye becomes more rigid with age, and this can lead to a variety of vision problems. Some of the most common problems are nearsightedness, farsightedness, and astigmatism. These problems can be corrected with glasses or contact lenses. It is important to see an optician as soon as you notice any changes in your vision. This will help you to avoid any complications and ensure that you are able to see clearly.

**Confiscated**

**T**he police have confiscated a large number of illegal gambling machines from a public house in the city. The machines were found to be rigged to cheat the players. The police are now investigating the case and have issued a warning to other public houses to ensure that their machines are legal. This is the first time in many years that such a large number of machines have been confiscated. The police are determined to bring an end to illegal gambling in the city and will continue to monitor public houses for any suspicious activity.

**LUO DEFENCE UNCONVINCING**

**W**ith the defence counsel's arguments, the jury found the defendant guilty of the crime. The defence had argued that the defendant was not responsible for the crime, but the evidence was overwhelming. The jury heard testimony from several witnesses who saw the defendant at the scene of the crime. They also heard testimony from the victim's family, who were devastated by the loss of their loved one. The defence counsel's arguments were unconvincing and did not sway the jury. The defendant is now facing a long prison sentence for his crime. The case has caused a great deal of controversy in the community, and many people are questioning the fairness of the trial. It is hoped that the defendant will be able to appeal his conviction.

**Letters to the Editor**

**I**ntegrator

**T**he article in your issue of the 15th inst. regarding the proposed new road crossings is most interesting. It is a pity that the article does not mention the fact that the proposed crossings are not only a waste of money but also a danger to the public. The crossings are being built in places where they are not needed and where they will cause a great deal of traffic congestion. It is hoped that the government will reconsider its decision and that the crossings will not be built.

**Satisfactory results from E.A. investment**

**T**he results of the investment in the E.A. are most satisfactory. The investment has resulted in a number of new projects being undertaken, which will benefit the community. The projects include the construction of new roads, the building of new schools, and the provision of new health services. It is hoped that the investment will continue to be successful and that more projects will be undertaken in the future.

# BY-LAWS TO END PUBLIC NUISANCE

counter-steps  
to noisy dogs  
and vandals

Measures to curb vandalism, careless damage by noisy dogs, noise and other nuisances - including the use of Nairobi and adjacent areas are laid out in draft by-laws.

The draft by-laws, prepared by the Nairobi Municipal Council, will be submitted to the Municipal Council for Local Government on Monday, August 10, and will be open for public inspection from that date.

The by-laws will deal with the control and abatement of nuisances, including the use of dogs, the control of public places, the control of public buildings, the control of public works, and the control of public utilities.

The by-laws will also deal with the control of public places, the control of public buildings, the control of public works, and the control of public utilities.

# WORLD BANK CAPITAL UP

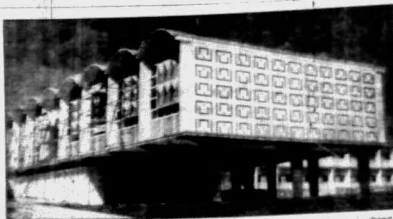

## Members double total

A MAJOR increase in the number of members of the International Bank for Reconstruction and Development (IBRD) has been announced today.

The bank's membership has doubled since 1957, with 108 countries now members, compared with 52 in 1957.

The bank's president, Robert Triffin, said that the increase in membership was a sign of the bank's growing importance in the world economy.

The bank's capital has also increased, from \$1 billion in 1957 to \$2 billion today.

There are many changes taking place in Asia, and particularly there is a new approach towards development through modern technology.

Above it shows the progress of the bank's work in Asia, and particularly in the field of industrial development.

The bank's work in Asia is being carried out through a number of technical assistance projects, which are designed to help the countries of the region to develop their economies.

## WINDFALL FOR CROSSINGS?

**SAFETY** improvements of level crossings, or rather the lack of them, are attracting great public interest in East Africa. This is probably so in Kenya where improvements are made urgently and a fairly involved technique of the procedure of crossing on many early crossings is diverting traffic of a fast driving traffic.

The railway department in East Africa has not been able to do much about this. The railway department in East Africa has not been able to do much about this. The railway department in East Africa has not been able to do much about this.

# MINISTER OPENS YATTA FURROW

## Kamba tribesmen see 'impossible' proposal come true

WHEN Kamba tribesmen first heard of the proposal to construct the Yatta Furrow they thought it was only words and did not believe it was really possible. Chief Timothy Muni, of the Yatta Location, said yesterday.

*A new building technique*

**Met-Ram**

The Met-Ram system is a new building technique which offers a wide range of adaptability and strength. It is particularly suited for the construction of industrial buildings, warehouses, and large-scale residential developments. The system consists of a series of interconnected metal members that form a rigid, self-supporting frame. This frame can be adapted to a wide variety of building shapes and sizes, and it is capable of supporting heavy loads. The use of Met-Ram allows for faster construction times and lower costs compared to traditional building methods.
