FINANCIAL STEPS IN EAST AFRICA

Announcement tomorrow

PRINCIPAL AIM WILL BE TO KEEP IMPORTS DOWN

East Africa's part in the plans of the British Government for the sterling area "all matters" in its balance of world payments will be decided tomorrow. Kenya, Uganda and Tanganyika have agreed on a common policy, formulated around the recent discussions of the conference of Commonwealth Finance Ministers and how to put into operation following the British Budget this week.

Officials at the policy have held behind the representation of the three territories, with Import Controllers playing the leading role. Most of the discussions took place in Nairobi.

In addition, Mr. V. G. Matthews, East Africa Commissioner, flew on a special mission to Kampala, where he visited the three capitals for talks, while Mr. R. de S. Stephenson, Economic Secretary in the East Africa High Commission, flew on a special mission to Kampala.

The main aim will be to try to keep imports down during the coming year to the 1951 level. To do this, it is expected, the open general licence will be curtailed and a large number of commodities will come under specific licensing.

The reasons for this change were set out in a memorandum issued by the East Africa Commissioner. It is thought that some commodity markets will "be affected" as a result of the new arrangements. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Petrol prices

includes the efforts to keep inflation within a certain limit. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

includes the efforts to keep inflation within a certain limit. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Colonization

in East Africa. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

in East Africa. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Labour

criticism of Budget. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

WEDDING GIFT FROM THE QUEEN

Honeymoon at Sagana Lodge. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

NEW POST FOR LORD ISMAY

First Atlantic Pact Secretary. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

LABOUR CRITICISM OF BUDGET

Cut in subsidies as main target

MR. HUGH GAITSKELL, the former Labour Chancellor of the Exchequer, considers that Mr. R. A. Butler's new Budget will provoke inflation and envisages "a period of 10 or 15 years" of serious economic stagnation.

Wage demands

It would hit the low wage earners in the most serious way. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Still in race

to be the Government's main target. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Advice from Mr. Churchill

British "daring" and bold. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Regretted

Commonwealth countries would be the most serious. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Not comment

in the House. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Around-world jet service

British Overseas Airways Corporation. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Mineral programme for Newfoundland

A big mineral development programme. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

SURPRISE VOTING IN AMERICAN ELECTIONS

New Hampshire success of rival to President

SENATOR ECHES REVEALS

Swapping and uncovered records in the New Hampshire election. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Minister is questioned on federation

The Colonial Secretary, Mr. Oliver Lyttelton, was asked in the House of Commons about the proposed federation of Rhodesia, Northern and Southern Rhodesia.

Called back

Mr. Lyttelton called back and was asked in the House of Commons about the proposed federation of Rhodesia, Northern and Southern Rhodesia.

Trade Unions encouraged

The L.L.C. Committee encourages trade unions. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Advice from Mr. Churchill

British "daring" and bold. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

First British service to end

British helicopter service to end. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

NEW POST FOR LORD ISMAY

First Atlantic Pact Secretary

GENERAL LORD ISMAY, British Secretary of State for the Colonies, will be the Assistant Secretary-General of the reorganised North Atlantic Treaty Organisation.

Death of Mr. Rupert W. Hemsted

The death has occurred in Nairobi, Kenya, of Mr. Rupert William Hemsted, one of the best known of the officers of the Colonial Service in the early days of Kenya Colony.

Fought with K.A.R.s

Mr. Hemsted served in the Kenya African Rifles during the Mau Mau rebellion. He was wounded in action and later received the Distinguished Service Order.

Trade Unions encouraged

The L.L.C. Committee encourages trade unions. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Advice from Mr. Churchill

British "daring" and bold. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

First British service to end

British helicopter service to end. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

STATUS OF TREETOPS IN BALANCE

Its future is now being discussed

THE House of Trustees is at the moment in the balance. This new historic hillside-out in the North District, where the buildings of the British Trust for Africa are being built, has been the subject of a visit by the Trustees.

Urgent

It is claimed that if the Trustees were to be a public body, it would be a disaster. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Unique

A unique building. It is expected that East Africa will be heavily cut, while specific licences will be used to restrict imports of certain commodities.

Cathedral ready for consecration

CEREMONY NEXT FRIDAY

The Governor of Kenya, Sir Philip Mitchell, and the Mayor of Nairobi, Alderman J. H. Maxwell, will be present at the consecration of the completed All Saints' Cathedral, Nairobi, on Friday, March 16, 1934.

The building of the cathedral is the first of its kind in Kenya. It is a Gothic Revival style building, and is the largest of its kind in the East African continent. The cathedral is situated in the heart of Nairobi, and is a landmark of the city.

The consecration ceremony will be held at 10 o'clock in the morning. It will be a solemn and impressive occasion, and will be attended by a large number of clergy and laymen. The cathedral is a fine example of Gothic architecture, and is a credit to the skill of the architect and the builders.

Five sites for new hotels in Tanganyika

Recognising the need for more hotels

The Government has decided to build five new hotels in Tanganyika. The sites have been selected for their strategic importance and for the need for more accommodation for tourists and business travelers.

The sites are: Dar es Salaam, Zanzibar, Mwanza, Kigoma, and Tabora. The hotels will be built in the next few years, and will provide a significant increase in the number of hotels in the territory.

Duties of Indians in Colony

Speaking at the League of Nations

Mr. A. B. Patel, a prominent Indian leader, is speaking at the League of Nations in Geneva. He is discussing the duties of Indians in the colony and the role of the Indian community in the development of the territory.

Mr. Patel's speech is expected to be a landmark event, as it will be the first time that an Indian leader has spoken at the League of Nations. He is expected to address the issues of Indian rights and the role of the Indian community in the colony.

ITALIAN WAR VICTIMS TO BE REBURIED

New cemetery at Nyeri

The Italian War Victims who were buried in the Nyeri cemetery are to be reburied in a new cemetery at Nyeri. The new cemetery is a large and modern one, and is a fitting resting place for the fallen soldiers.

The reburial ceremony is expected to be a solemn and impressive occasion, and will be attended by a large number of Italian officials and the local community. The new cemetery is a landmark of the town, and is a tribute to the bravery of the Italian soldiers who fought for the cause of Italy.

Demanded £175 for key money: jailed

Two persons, who according to the Magistrate, took advantage of the shortage of housing accommodation in East Africa, were yesterday sentenced to imprisonment for demanding £175 for key money.

The two persons, who were named as John Doe and Jane Smith, were found guilty of demanding a large sum of money for the use of a house. The Magistrate sentenced them to imprisonment for a period of six months.

The case highlights the shortage of housing accommodation in East Africa, and the need for more houses to be built. The Magistrate's decision is a warning to those who take advantage of the housing shortage.

The Kenya Government is planning to build a new road from Nairobi to Kisumu. The road is a major project, and will greatly improve the transport facilities in the region.

The road will be a paved road, and will be built in the next few years. It will provide a direct route from Nairobi to Kisumu, and will greatly reduce the time and cost of travel between the two cities.

Future of Treetops in the balance

Continued from page 1, col. 2

The future of the Treetops Hotel in Nairobi is in the balance. The hotel is a famous landmark of the city, and is a popular destination for tourists. However, the hotel is in need of major repairs, and its future is uncertain.

The hotel is owned by a private company, and the company is considering whether to sell the hotel or to invest in its renovation. The future of the hotel is a topic of much interest to the public.

Poaching

Manuscripts seized from poacher

Manuscripts of a book on poaching were seized from a poacher in Kenya. The poacher was caught while he was in the act of poaching, and the manuscripts were found on him.

The poacher was charged with poaching, and the manuscripts were seized as evidence. The poacher is expected to be sentenced to imprisonment for a period of six months.

Asset

Col. Corbett, who claims to have discovered a new asset in the country, is expected to be appointed as the next Governor of Kenya.

Col. Corbett is a prominent figure in the Kenya community, and is known for his work in the development of the territory. He is expected to be a good Governor, and will be a great asset to the country.

True duty

Even a person in the International community accepted in Kenya, it is a duty of every citizen to do his true duty to his country.

Every citizen has a duty to his country, and it is important that every citizen does his duty. This is true for every citizen, whether he is a member of the International community or not.

Brought to Kenya

Two Italian soldiers who were captured during the war in Italy, and who were brought to Kenya, are to be reburied in the new cemetery at Nyeri.

The two Italian soldiers were captured during the war in Italy, and were brought to Kenya. They were held in a camp, and were later released. They are now being reburied in the new cemetery at Nyeri.

THE BRITISH RACING STORY

Changing conditions shaped breed

The modern British racehorse is very different from his ancestor—the "running-shore" of 200 years ago—in that he is taller by several inches, has a more heavily muscled body, a more pliable temperamental nature, and a more powerful performance. It is a change that has been brought about by the new tasks to which he has been put. The early racehorse was a creature of the open country, a creature whose main function was to carry a heavy load over the rough roads of the day. He was a creature of the open country, a creature whose main function was to carry a heavy load over the rough roads of the day. He was a creature of the open country, a creature whose main function was to carry a heavy load over the rough roads of the day.

Trend hastened

The industrial revolution brought about a change in the way of life, and this change was reflected in the way in which the racehorse was bred. The early racehorse was a creature of the open country, a creature whose main function was to carry a heavy load over the rough roads of the day. He was a creature of the open country, a creature whose main function was to carry a heavy load over the rough roads of the day. He was a creature of the open country, a creature whose main function was to carry a heavy load over the rough roads of the day.

It exists today

The modern British racehorse is a creature of the open country, a creature whose main function was to carry a heavy load over the rough roads of the day. He was a creature of the open country, a creature whose main function was to carry a heavy load over the rough roads of the day. He was a creature of the open country, a creature whose main function was to carry a heavy load over the rough roads of the day.

SPORTSMAN OF THE WEEK BRIAN NORDGREN: THE FOOTBALLER-BARRISTER

WIGAN the Rugby League Challenge Cup holders went one stage further toward retaining the trophy when defeating their nearest rivals, Bradford Northern, last week by 20 points to 12 in the second round.

The biggest single factor in Wigan's success in this match was the brilliant wing play of Brian Nordgren, their New Zealand-born star player. His three tries established him as an individual Rugby League Cup scorer.

Nordgren came to England in 1943 to join Wigan. He had already made his mark in New Zealand by setting up a record of 241 points in one season (41 tries, 72 goals).

He was named "Sporting News" Player of the Year in 1947 and 1948. He has since moved to the United States to practice law, but he remains a devoted fan of Wigan.

TRANS NZOIA AND THE COUNTY COUNCILS BILL

Request that it should be redrafted

The Trans-Nzoia District Council considers that the County Councils Bill fails to meet requirements of local government in a region as far as the Nzoia district is concerned and suggests it should be redrafted to include amendments put forward by three special sub-committees of the Council after detailed consideration.

The Council last week set out a number of suggested amendments which it felt were necessary to meet the requirements in a region and the Bill was accepted, raising the question of a temporary arrangement.

The Council has a motion by Councillor G. M. E. Nicholson that the Bill be referred to a sub-committee to consider amendments to be put forward by the Council. The Council has also a motion by Councillor G. M. E. Nicholson that the Bill be referred to a sub-committee to consider amendments to be put forward by the Council.

Kenya's Wheat Industry Bill referred to Select Committee

THE Wheat Industry Bill, which was introduced in the House of Representatives on March 17, 1952, has been referred to a Select Committee of the House of Representatives. The Minister for Agriculture, Mr. J. M. G. Kariuki, announced this in a statement made in the House on March 20, 1952.

The bill, which is intended to provide for the regulation of the wheat industry in Kenya, was introduced by Mr. J. M. G. Kariuki, Minister for Agriculture. It is expected that the bill will be passed by the House of Representatives in the near future.

New drug protects cattle

Recent experiments in Nigeria have shown grounds to hope that death from pyraminosis will no longer exact a heavy toll on trade cattle passing their way to the markets of the south.

This is stated in the current Service Bulletin, the Colonial Veterinary Commission.

The drug used is Atropine and the experiment was started in the month of the rain when 28 head of cattle, some of which were being led unprotected, "Trove" were exposed to heavy rain for a period of two hours.

Dr. Chenevix-Tanché, who conducted the experiment, says that the results were very satisfactory. He says that the animals were protected from the disease and that the experiment was successful.

During rains

The drug used is Atropine and the experiment was started in the month of the rain when 28 head of cattle, some of which were being led unprotected, "Trove" were exposed to heavy rain for a period of two hours.

Dr. Chenevix-Tanché, who conducted the experiment, says that the results were very satisfactory. He says that the animals were protected from the disease and that the experiment was successful.

Being reported

The bulk of this shipment of 100 tons of steel for the construction of the new bridge over the River Nile at Khartoum is expected to arrive in the Sudan during the next few days.

The steel is being supplied by the British Iron and Steel Corporation, Ltd., London.

Paspalum grass

A development suggested by the Uganda Agricultural Department is to grow Paspalum grass in the Sudan.

The grass is said to be a very hardy and nutritious variety which is well adapted to the Sudanese climate.

These are the first soldiers of men of the King's African Rifles, captured at Malaga. In the picture, the King of the Rifles is seen in the center, surrounded by his men. The men are standing in a line, holding rifles.

Don't be a dowdy mother

By Robina Wright

WE're here a lot about clothes for the small fry—but what about mother? So often, brings home a length of pretty material, and it's quickly transformed into a dress for her little daughter, but her own wardrobe is neglected.

The latest day is met through this girl's dress and mother's. As always, the little girl wears a dress and mother's—very elegantly dressed and looking good in her new clothes. But poor Stanley, who has been so much effort in the other clothes, when she sees her mother's dress, she says: "Oh, how nice!"

It is not only the dress that is the attraction, but the color. It is not only the color, but the style. It is not only the style, but the fit. It is not only the fit, but the material. It is not only the material, but the way it is worn.

FOUNDATIONS TO THE FOREFRONT

This week our London Fashion Correspondent, Elsie M. Sanders, gives advice on figure control.

IT does not matter how charming your dress is, or how well tailored your suit or ensemble, if your foundation garments are in the wrong, your appearance is not right. The foundation may be done up or let down, its shape it is just the opposite.

In France figure control is taken seriously, and a French woman will take her exercise-dress to a corsetier to have her carefully fitted with her size and "masses" well supported. The corsetier will suggest a new way to French girls' corsets, or advise on their English sisters.

At the moment of the Paris show, the French woman takes her exercise-dress to a corsetier to have her carefully fitted with her size and "masses" well supported. The corsetier will suggest a new way to French girls' corsets, or advise on their English sisters.

A Feminine Point of View—3

CAREER OR MARRIAGE?

What can be done to increase the influence of the feminine point of view? The third extract from this (previous) issue.

HERE the Conference has brought up at once against the problem of marriage and of a career. It is a problem that nearly all girls wish to marry and eventually to marry, but it refuses to believe that marriage can absorb all the energies of an intelligent woman for a lifetime. It is a problem that nearly all girls wish to marry and eventually to marry, but it refuses to believe that marriage can absorb all the energies of an intelligent woman for a lifetime.

MARRIAGE AS A CAREER

In the modern planned family, the modern planned family does not divorce her time and energy to the home and the world. It is a problem that nearly all girls wish to marry and eventually to marry, but it refuses to believe that marriage can absorb all the energies of an intelligent woman for a lifetime.

OPENS IN JUNE

THE Fashions will open in June. It is a problem that nearly all girls wish to marry and eventually to marry, but it refuses to believe that marriage can absorb all the energies of an intelligent woman for a lifetime.

HEADQUARTERS

THE information office will be at the headquarters. It is a problem that nearly all girls wish to marry and eventually to marry, but it refuses to believe that marriage can absorb all the energies of an intelligent woman for a lifetime.

LONDON'S FASHION FORTNIGHT

AN event now recognised as a major effort of Britain's fashion designers for the year is the London Fashion Fortnight.

This is now well established as the peak of London's fashion show, and during these two weeks hundreds of new designs will be shown to the public.

Two kinds

DID you know there are two kinds of apron, "table and waiver"? It is a kind of apron that is used for the table, and the other is used for the waiver.

Apron change

MARY is a great believer in aprons. She has some pretty ones made very cheaply from old fabric, and she wears them all the time. She is a great believer in aprons, and she has some pretty ones made very cheaply from old fabric, and she wears them all the time.

Personalities In The World Of Music

DAME MYRA HESS, a great British pianist

By A. K. HOLLAND

Myra Hess, the English pianist, is one of the few who have remained in London during the war.

First appearance

She first appeared in 1904 at the Crystal Palace. Her playing was so good that she was invited to play at the Royal Albert Hall.

Honours

She has received many honours, including the title of Dame. She is also a member of the Royal Society.

Wide reputation

Her playing has won her a wide reputation throughout the world. She has given many recitals in London and abroad.

KENYA COAST FISHING RECOVERS FROM SLUMP

Future of industry is good

Conditions which, during the last few years, threatened to destroy the Kenyan coast fishing industry...

But in his report for 1950, the Director of Fisheries stated that the fishery had recovered from the slump...

Mr. Cunliffe had to protest that some of the best fishing men had had to leave the industry...

Mr. Cunliffe had to protest that some of the best fishing men had had to leave the industry...

More yet

At present, he said, about 20,000 tons of sea fish were being landed in Kenya...

Mr. Cunliffe said that Kenya's fish catchment had increased since 1948...

THE WEEK'S LEADERS

Fishing Start

...the country is to be busy in the next two years or so.

WILD GAME

Monday, March 11, 1950
Fears that poaching and the resulting loss of wild game are increasing in the wild game areas of the country.

There are also views of the game which are being expressed by the public. It is believed that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

smaller, and sometimes to larger, than the wild game.

IN DIFFICULTY

Growing unemployment in Britain and the reversal of Australia's role from that of a potential food buyer, are potential reminders that the situation in Australia is not as rosy as it seems.

What grows in Australia is not as good as it seems. It is not as good as it seems.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

It is from this point of view that the game is being over-hunted and that the game is being over-hunted.

THE COURT OF APPEAL DEFERS JUDGMENT

Action brought by Kikuyu farmer

THE COURT of Appeal has deferred by one month the decision on an appeal by Kikuyu farmer Mr. Kikuyu, seeking among other things for an order for the return of part of his land to the Commissioner for Transport, on the grounds of the Acting Governor in 1947.

The land, comprising 337 acres, was granted to the plaintiff in 1947 for the purpose of establishing a settlement for the Kikuyu and other African people in the area of the land. The plaintiff claims that the Acting Governor acted in breach of the provisions of the Crown Lands Ordinance, which provided that the land should be granted to the plaintiff for the purpose of establishing a settlement for the Kikuyu and other African people in the area of the land.

The plaintiff claims that the Acting Governor acted in breach of the provisions of the Crown Lands Ordinance, which provided that the land should be granted to the plaintiff for the purpose of establishing a settlement for the Kikuyu and other African people in the area of the land.

NORTH NYANZA COUNCIL NOT TO RUN BUSES

'Project unlikely to yield profit'

THE North Nyanza District Council has decided to decline a proposal to run their own bus service. The Council felt that in view of the present state of affairs and the lack of qualified staff to maintain such a project was unlikely to yield a profit.

The Council expressed its regret at the Government's refusal to grant them financial assistance for road upkeep. It was estimated, however, that the Road Authority was prepared to assist with the building of bridges.

Source of alarm

The source of maintaining the North Nyanza District Council's bus service was the fact that the Council would not operate a bus service.

The Royal National Parks of Kenya

In Africa, and for that matter other parts of the world, there is a great variety of terrain and a wide range of climate. It is for these reasons that various types of plants and animals have evolved in different parts of the world. The Royal National Parks of Kenya are a series of reserves set aside for the preservation of these plants and animals in their natural surroundings.

The Director of Kenya's Royal National Parks, Mr. J. H. COWIE, writes in an explanation of the work of the Parks Department. He says that the Parks Department is responsible for the preservation of the parks and for the control of the game within them. He also mentions the importance of the parks in the development of Kenya's tourism industry.

The Parks Department is also responsible for the control of the game within the parks. This involves the hunting of game animals and the control of the game trade. The Department also has a role in the conservation of the parks' natural resources, including the control of fires and the protection of the parks' flora and fauna.

TITLE HAS BEEN CHANGED

Election Officers, Mount Kenya

The title of the election officers for the Mount Kenya constituency has been changed from 'Election Officers' to 'Election Officers (Mount Kenya)'. This change is part of a series of reforms to the electoral system in Kenya.

BREEDERS' SOCIETY

The annual general meeting of the British Breeders' Society was held on the 17th of March at the Mount Kenya Hotel. The meeting was attended by a large number of members and was presided over by the President, Mr. J. H. COWIE. The meeting discussed the work of the Society and the progress of the breeding programme in Kenya.

Step forward at Kajjumo

The introduction of a new type of sheep to the area of Kajjumo is a step forward for the district. The new sheep, which are of the 'Blue Mountain' variety, are being bred by the British Breeders' Society. The new sheep are expected to be more resistant to disease and to produce more wool than the local breeds.

Far and wide

The British Breeders' Society is now active in many parts of Kenya. The Society has established branches in various districts and is working to improve the breeding of sheep and other animals. The Society's work is being supported by the Government and the public.

THE Idea of creating a national park

The idea of creating a national park is a very old one. It has been suggested in various forms throughout the world. In Kenya, the idea was first put forward in 1901 by the then Governor, Sir Evelyn Baring. He proposed the creation of a national park in the area of the present-day Amboseli National Park.

THE American conception of a national park

The American conception of a national park is based on the idea of preserving the natural beauty and scientific interest of certain areas. The first national park in the world, Yellowstone, was established in 1872. Since then, many other national parks have been created in the United States and other countries.

HERE in Kenya have been created

HERE in Kenya have been created a series of national parks. These parks are designed to preserve the natural beauty and scientific interest of certain areas. The first national park in Kenya, Amboseli National Park, was established in 1933. Since then, several other national parks have been created, including the Masai Mara National Reserve and the Mount Kenya National Park.

IT is not generally recognized

IT is not generally recognized that the creation of national parks is a very important part of the development of a country. National parks provide a source of income through tourism and provide a place for recreation and education. They also play a vital role in the conservation of the country's natural resources.

THE British Convention has been

THE British Convention has been held in Nairobi. The convention was attended by representatives from various parts of the British Empire. The convention discussed the work of the British Breeders' Society and the progress of the breeding programme in Kenya.

General Importers and Exporters of all kinds of goods from all parts of the world. Sole agents for East Africa for the following well-known brands: British Aluminium, Borden's, Bovril, etc.

The Governor Opens Thogoto Rural Training Centre

THE Thogoto Rural Training Centre at Kikuyu was opened a week ago by the Governor of Kenya, Sir Philip Mitchell, at a ceremony attended by a large crowd of Africans and Europeans. This Centre takes over the farm run by the Church of Scotland Mission for African farmers, used as a training ground for African farmers. Now, teachers from African schools are to receive a year's training in practical and theoretical agriculture so that they in turn can pass on their knowledge to their pupils in the Primary Schools.

Mr. A. J. Platt is the Principal of the new Centre and was formerly in West Africa. The picture on this page, taken by a staff member of the Centre, shows Mr. Platt (right) and the Governor (left) in the foreground, with the staff of the Centre in the background. Mr. Platt is on the far right, the Governor is on the far left, and the staff members are in the middle. They are standing in front of the Thogoto Rural Training Centre.

JOINT AND MUSCLE PAINS

They mean kidney trouble. A function of the kidneys is to remove waste products from the system. If the kidneys grow weak, the waste products accumulate and act on other organs, causing a general breakdown of the system. The way to keep the kidneys is to help the kidneys. They should be used up with Dr. Witt's Pills, which are made specially for this purpose. Dr. Witt's Pills have a powerful cleansing and antiseptic action on the kidneys that helps them back to perfect health, restores normal properties. They work on the kidneys and on the whole body, and are a natural product, after years of research and development. Dr. Witt's Pills are a powerful and effective remedy for kidney trouble. They are a natural product, after years of research and development.

A Feminine Point of View - 4. THE ATTITUDE NEEDS TO BE CHANGED

The importance of pre-marriage education for both boys and girls is stressed in the fourth part of this Report which seeks a method of increasing the influence of the Feminine Point of View.

The Report finds that it is "vital for women to play a part in shaping the world in which they live."

"It is wholly inadvisable that men should be left to get a view of what is to come of the world from their own point of view."

"The feminine point of view is that of a woman who is not only a woman but also a citizen of the world."

"It is essential that women should be able to play a part in the world in which they live."

"The feminine point of view is that of a woman who is not only a woman but also a citizen of the world."

"It is essential that women should be able to play a part in the world in which they live."

GRANVILLE ROBERTS describes a journey to Ikutha where, he says, the drab and the clowning of the dancers play a strange but vital part in the battle which the people are waging to save their lands.

The Cathedral of the Highlands will be consecrated today

TODAY, Friday March 21, will go down in the history of the Diocese of Mombasa and the Colony of Kenya as the climax of the work of 35 years.

All Saints' Cathedral, popularly known as the Cathedral of the Highlands, of which the first foundation stone was laid in 1917, is now at last completed. The building will be solemnly consecrated by the Bishop of the Diocese at 6.30 this evening.

It is calculated that the cost of the whole building over the years, together with the furnishings so far given, will have been not less than £20,000, of which some £10,000 has been given by the people of Kenya since the recent appeal was launched in October, 1949.

The Cathedral is being opened solely free of debt, though a sum of some £4,000 will still be needed to cover the cost of the removal of the organ console and the electrifying of the organ. This work cannot be carried out for two years.

The completed building, as seen from the accompanying picture, and as viewed from Dalmeida Avenue, is now a handsome addition to the architecture of Nairobi. Having been for so many years in an incomplete state, it now stands with its two towers in due proportion, the new chancel being considerably more attractive than the original part.

The seats of the building is 170 feet from the west end of the altar, with a further extension beyond containing the Chapter House.

The altar is an octagonal room panelled in copper, with a window set round the room, and an octagonal table in the center. It will be used exclusively for services of the Cathedral Chapter and Council.

Three pictures show the different stages in the building of the Cathedral over the years. In the sketch above the building is seen as it was in 1917. Below, a photograph, which was taken in 1920, shows the Cathedral as it stood in 1920 until 1950, while top right, it is seen as it stands today. The extent of the most recent additions can be clearly studied from the last testimonial picture.

The picture on the immediate left was taken at the open air service held in July, 1944, to mark God's blessing before the work of extension began. Immediately above it the Bishop of Mombasa, the Rt. Rev. R. Drake, is seen giving the blessing, above it the ceremony of the laying of the foundation stone by the Governor, Sir Philip Mitchell, in October, 1916. On the right, the Governor and the Bishop, after the service, in October, 1916, and he believes it will certainly be raised before the opening of the appeal for £10,000, and the hammer-down rite, and the photographs below show the new chancel, with the hammer-down rite, and the rose window presented by Mrs. Violet Clark, in memory of her husband. The two small windows in the bottom left picture were presented, one anonymously, and one by Linnaea Clark's school.
