SUBSTANTIAL PROGRESS IN PARIS TALKS

TERRORISTS IDENTIFIED: POSITION OF THE JEWISH AGENCY

Paris, July 2.—The Foreign Ministry will issue a statement today on the progress of the talks between the British and French governments on the subject of the Jewish Agency's proposal for the establishment of a Jewish State in Palestine.

The British Prime Minister, Mr. Clement Attlee, in a statement in the Commons yesterday on the situation in Palestine said that a vast amount of arms, ammunition and explosives had already been found. Although some members of the Jewish Agency had been arrested it was not the Government's intention to close or restrict the Agency's work.

Mr. Attlee said that the Government would not tolerate any attempt by any party to influence the position of the Jewish Agency in Palestine. He said that the Government would not tolerate any attempt by any party to influence the position of the Jewish Agency in Palestine.

articles in India and the Pacific, and in Malaya. Poldrine, where they were administered by the Australian Army Medical Research Department, Dr. J. S. Hamilton Palmer, and Dr. J. D. Wainwright, and in the West, undergoing comprehensive trials in order to determine the efficacy of the drug against the malarial parasites of the types of malarium which are the most serious and prevalent in the tropics.

It is now the belief of the medical authorities in Australia and elsewhere that the results of these tests. From his first observations, Dr. Wainwright, who is now in the West Indies, said that about 100 patients with malarial fever, who were treated with Poldrine, were cured. The results of these tests are being compared with those of other anti-malarial drugs, and it is expected that Poldrine will be found to be the most effective.

The perfect anti-malarial drug must possess three specific qualities. First, it should be a powerful blood tonic, and secondly, it should possess the ability to destroy the malarial parasites in the blood. Poldrine meets these requirements. It is a powerful blood tonic, and it has been found to be effective against the malarial parasites in the blood.

Her RHEUMATISM Gradually Went Away

After 12 years of suffering from rheumatism, Mrs. J. M. Smith writes: "I was able to get my old life back after 12 years of suffering from rheumatism. I was unable to walk and I was in constant pain. I had tried many different treatments, but nothing seemed to help. I then tried 'Naturalisation' and after a few weeks I was able to walk again. I am now able to do all the things I used to do before I was afflicted with rheumatism. I am very grateful to 'Naturalisation' for what it has done for me."
