PEACE SURRENDER DAY OF PRAYER

To the Editor, "E.A. Standard"

On the 13th of July, 1944, the first time in human history, the nations have met for so great a common purpose. A series of conferences in terms of objectives to contribute to the world's peace.

Therefore, I was a member of a National Prayer for all people of the world for as we as all of us, every man, woman and child, while the peace is being made.

One tremendous hour of prayer, in the open world, is suggested by the League and the representatives of the nations. It is not necessary to be in any one place. The League and the nations of the world are in the same place. The League and the nations of the world are in the same place. The League and the nations of the world are in the same place.

Yours truly,

THE Tanganyika Government has been notified by the British Government that the latter has decided to withdraw its troops from the territory. The Tanganyika Government has expressed its appreciation of the British Government's decision and has stated that it will continue to maintain its own troops in the territory. The British Government has also stated that it will continue to maintain its troops in the territory until such time as the Tanganyika Government has been able to maintain its own troops in the territory.

BRITISH COLONY

THE British Government has decided to withdraw its troops from the Tanganyika Territory. The decision was announced in a statement by the Secretary of State for the Colonies, Mr. Balfour, on January 14, 1926. Mr. Balfour stated that the British Government had decided to withdraw its troops from the Tanganyika Territory because it was no longer necessary for them to be there. He also stated that the British Government would continue to maintain its troops in the territory until such time as the Tanganyika Government had been able to maintain its own troops in the territory.

KEY-KYA'S BIGGEST-EVER DEVELOPMENT PLAN

Proposals to Spend £15½ Millions In Next Ten Years

A PLAN to spend some £15,500,000 on the development of Kenya in the next 10 years is set out in two yellow folders, one for the Government and the other for the Kenya Legislative Council this week. They are the report of the Kenya's Development Committee, which was appointed some 18 months ago.

The Development Committee, headed by the Hon. Mr. J. M. Kenney, C.M.A., has submitted its report to the Government and the Kenya Legislative Council. The report is a comprehensive study of the country's economic and social conditions, and proposes a wide range of development projects.

The report is divided into several sections, including: (1) General Survey, (2) Agriculture, (3) Industry and Commerce, (4) Transport and Communications, (5) Education and Health, and (6) Social Services. It also includes a detailed financial statement of the proposed development programme.

The total cost of the proposed development programme is estimated at £15,500,000 over a ten-year period. This includes the construction of roads, bridges, and railways, as well as the establishment of schools, hospitals, and other social services.

The Government has agreed to contribute £10,000,000 towards the cost of the development programme, while the Kenya Legislative Council has agreed to contribute £5,500,000. The remaining £500,000 is to be provided by the private sector.

The Development Committee's report is a landmark document in the history of Kenya's development. It provides a clear and comprehensive plan for the country's future, and is a testament to the Government's commitment to progress and prosperity.

The report is available for public inspection at the Kenya Secretariat, Nairobi. It is also available for purchase from the Kenya Government Printing Office.

The construction of the houses is part of a larger development programme in Typhoon, which also includes the building of a school and a health centre. These facilities will greatly improve the living conditions of the local population.
