Inner Clearliness

The Ideal Form of Laxative

ANDREWS LIVER SALT
COOLS - REFRESHES - INVIGORATES

First thing in the morning—yes, even before you get up, think of Inner Clearliness. There's nothing so refreshing as feeling that you are starting your day on a clean, clear, and healthy basis. It is important to your health to feel that way every morning. Inner Clearliness—keeps you free of constipation, indigestion and other annoying ailments. This is how it does so.

FIRST - Andrews cleans and refreshes the stomach and bowels.

NIGHT - Andrews soothes the stomach and settles the mind.

THIRD - Andrews tones up the liver and cleans the bile passages.

FINALLY - To complete your Inner Clearliness, Andrews gently cleans the bowels, to remove every toxin—constipation, gas, indigestion, and the blood.

CORRESPONDENCE

TRAVEL

To the Editor, "E.A. Standard."

Sir—The travelling public and the proprietary associations alike, by the East African Airways Corporation, are disappointed at your recent publication of today, far from satisfactory.

May we ask this State-organized organization:

(1) What is this "condition" which necessitates amputation and complete stripping of all sinews in use and why? Has it ever been discovered?

(2) Are all other air lines of similar nature? Do you know of any other air line which has been discovered?

(3) Whether passengers by the East African Airways Corporation are to be disappointed in the future of discovering the defect necessitating the amputation of sinews, have been travelling in pairs of their liveries?

(4) Why should it take two months to strip and inspect the engine and effect the necessary replacement? How many aircraft are they operating?

(5) If new engines or parts thereof are wanted, why cannot the necessary requirements be obtained by the "United Kingdom"?

There is far too much black ink about the whole business, and we come into the open, and hear the reasons of the trouble.

Yours, etc.,

MR. CREEDY JOHNSON TOUR—
GDAN CRITICISM

To the Editor, "E.A. Standard."

Sir—I was interested to read the details of how the "Standard" had been advertised, and I was surprised to see that of this really magnificent and far-reaching proposal, a million shillings had been promised. My only objection to this proposal was that it was not to be taken into consideration until it was approved by the Government. It is not yet the late- or is it?
