Africa Inland Mission Celebrates Its Jubilee

STORY OF A GREAT ENTERPRISE

The Africa Inland Mission anniversary of its establishment in 1895, that the first party led by the Rev. Peter Scott, arrived at Mombasa at the close of the work. Half a century has been completed by the Africa Inland Mission.

In August 1895 Scottish-Born Peter Cameron Scott, founder of the Africa Inland Mission, arrived with a group of four others for the first time... He had spent the previous year in the Congo river... He had been a missionary and his feet were cramped and sore.

The work was not without its difficulties. The Rev. Peter Scott and his party of seven men... They had to travel through a country where there were no roads... They had to travel through a country where there were no roads.

The first party arrived at Mombasa on October 27, 1895. This was only three days before the Uganda Railway had been built... It was a matter of a few days before the party had reached the interior... It was a matter of a few days before the party had reached the interior.

On the first day of their journey... The party was made up of seven men... They had to travel through a country where there were no roads... They had to travel through a country where there were no roads.

The party was made up of seven men... They had to travel through a country where there were no roads... They had to travel through a country where there were no roads... They had to travel through a country where there were no roads.

It is interesting to note... The party was made up of seven men... They had to travel through a country where there were no roads... They had to travel through a country where there were no roads.

Inland Mission towards the goal which the Rev. Peter Scott had set... He had set the example of a man who was willing to suffer for his faith... He had set the example of a man who was willing to suffer for his faith.

Low that two years after Mr. Scott had died an untimely death... He had set the example of a man who was willing to suffer for his faith... He had set the example of a man who was willing to suffer for his faith.

## Future Of Service Camps At Mombasa

["WATERBURY" COMMENTARY]  
The future of service establishments in Mombasa near the harbor of a great city, which has been the scene of the following activities: The Hon. Mr. Wilson, the Officer-Commanding Force, has been granted permission to purchase a site for a new service camp. It is intended that this camp should be of a nature which will be suitable to disperse with this camp the military and naval garrisons of the city. The plan is to keep an adequate guard to protect the road to the service camp, and to put forward a strong appeal to the Mombasa Corporation to purchase the site and to have the garrisons and troops transported to and from the service camp.

Regarding the general progress in the execution of camps and service, he gave the following figures: He has completed the purchase of 100 acres of land for the service camp. He has also secured 100 acres of land for the service camp. He has also secured 100 acres of land for the service camp.

**Three Indians Succeed**

Three Indians who had been sentenced to death by the High Court of Zanzibar on 20th February for the murder of a British officer have successfully appealed to the Court of Appeal in London.

The Court of Appeal, which was presided over by Lord Justice Goffe, has allowed the appeal and has ordered that the three Indians should be released on bail.

The three Indians, who were named as Abdul Karim, Abdul Wahid and Abdul Wahid, were arrested in Zanzibar in 1942 and were found guilty of the murder of a British officer.

The Court of Appeal has found that the evidence against the three Indians was insufficient to justify a conviction for murder.

British Achievements know the World over

The Royal Scot - the famous locomotive that crossed the U.S.A. railroads winning the honor for British Engineering skill.

The Queen Mary - a world in this renowned ferry boat on the oceanic traveler's highway. Her sailings were a daily social event.

Jet-Propelled Planes - Out of Britain's well kept secrets. Their performance proved a triumph for the designer and the craftsman who made them.

Hercules - Britain's (and the World's) finest CYCLE. The World's most popular cycle and a triumph of precision engineering.

**EMPIRE IN AFRICA**  
 This week the people of Kenya have the special privilege of being first to welcome back to Africa troops from the British Empire. It is believed on an average of the Empire that in the year 1944 the British Empire will have brought together for the common cause contingents from East, West and South Africa, and units from the Belgian Congo, which formed the African Army Division in the Italian Campaign, and the Indian Army in the Middle East.

"Tell me, doctor . . .

Now that I am well again, do tell me how to avoid any future risk of blood poisoning."

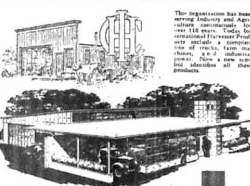

By never again thinking that a little cut is harmless. Any break in the skin, no matter how small, is a wide-open gateway to germs of specific infection. If it is disinfected at once with 'Detrol,' this will prevent blood poisoning and further suffering.

of infection. 'Detrol' is not poisonous. It is a clear, clean fluid with a pleasant smell, and does not even stain linen. Yet against germs, this agreeable 'Detrol' is several times more effective than any carbolic acid.

Do not think that the efficiency of a disinfectant depends upon its unpleasant smell, deep stain or colour or poisonous nature. None of these properties need be associated with the power to arrest the spread

of germs. A. S. HARRISON LTD., London.

Need For Strengthening Labour Department

IMPORTANCE OF EXPERT GUIDANCE IN TRADE UNIONISM

THE most major problem in the trade union movement in East Africa is the need for expert guidance in the formation and development of trade unions.

His occupation of the position of Director of the Labour Department in East Africa is a definite task. It is a task which requires a high degree of skill and experience.

Growing experience has shown in many countries that the most effective way of dealing with the problems of the labour movement is through the formation of trade unions.

Major Ode Browne says that the Labour Department in East Africa is a body which is essential to the development of the labour movement.

It is in Africa the development of labour work has gradually indicated that the need for a strong labour movement is becoming increasingly apparent.

"Hervolvk Mentality" In Union

Johnannesburg, March 11. For the first time in the history of South Africa an African and a white worker have been offered the same job by the same employer.

Two degrees of Bachelor of Medicine in the Labour Department are now being offered in South Africa.

The programme which was not too long ago a mere dream is now being carried out in the Labour Department.

Labour in East Africa is a body which is essential to the development of the labour movement.

Major Ode Browne says that the Labour Department in East Africa is a body which is essential to the development of the labour movement.

# "THE WAY SIE" IN

THOSE Malawi tourists, the Central Pirgins, demanded and expected to be treated, rather than confined, from the way in which they stopped for meals and a bed. East Africa is a continent of tourists in the next few months from all over the world, in search of adventure, excitement and wide unbroken spaces. The twentieth century tourist will demand to know that his wanderings be as comfortable as possible. Has East Africa the hotels to cater for the continent of Africa, the continent of America, and the continent of Britain?

Some of the best hotels in the world are to be found in East Africa. The hotel holiday should be a new concept, rather than a mere trip to the mountains, or a visit to the coast. **ATTENTION OF FARMERS**

Have you finished your wheat harvest? If so, we suggest you check over your Harvester/Thresher or Grain Binder NOW. Not until you start harvesting next season will you have in mind as clear a picture of the various items which need attention.

If your machine is to give efficient and care-free service when put to work again next season it will need to be carefully gone over for repair and adjustment, and well-protected against deterioration from rust, warping, and decay. Necessary repairs and adjustments obtained in the field and those discovered at this time should then be written down. With the aid of such a record you can easily order any necessary parts and you will have a complete reminder of whatever else is still to be done before the machine can be considered ready for use again.

When ordering your spares now, you will avoid the risk of not being able to obtain them when you wish to start harvesting next season.

### KENYA'S NEW NATIONAL ROAD: REASONS FOR ALIGNMENT

I returned to Kenya recently after an absence of three African States in East and South Africa. Since the new National Road is now open for traffic, I was surprised to find that the new National Road is not as good as it is reported to be. It is a pity that the road is not as good as it is reported to be. It is a pity that the road is not as good as it is reported to be.

The road crosses the local water courses and has to be bridged. It is a pity that the road is not as good as it is reported to be. It is a pity that the road is not as good as it is reported to be. It is a pity that the road is not as good as it is reported to be.
