THE operative word is "FERROVAL". As a matter of fact, FERROVAL, is the crux of the whole matter and what it means the job of building a solid, lasting house using a Ferroval roof, Unigrip windows, Ferno doors and Ferro metal lathing is one which anyone can tackle. Full instructions and detailed cuttings of the necessary units are available from The Booth Trading Company Limited, who can prove to you that you can build for as small an outlay.

**FISHING SAFARI—  
fabulous  
Lake Rudolf**

The chance of a wonderful ten days' fishing adventure amidst some of the wildest scenery in Kenya.

Rugged, primitive, romantic, mysterious—Lake Rudolf is all of these, a vast tract of water 173 miles long, in Kenya's far north, harbouring more fish than an angler's dream. Trout here are the mighty Nile perch, weighing up to 300lb., and the Tiger fish, a fighter out of all proportion to his weight. Sibly and Hainburg Safaris Limited know this fascinating area well. For the first time they are planning to arrange regular safaris to Lake Rudolf, primarily for fishing. The first leaves Nairobi on August 17. The camp will be at Lake Rudolf on the eastern shore of Lake Rudolf, where comfortable accommodation, good food and drink, motor launch and all fishing tackle will be provided.

It will be one of the memorable trips of your life.

## Britons reported swept from mountain face

# MEMBERS LOST IN BLIZZARD

### Vain search on peak in Himalayas

#### Starting the holiday week

**FIVE** members of a British expedition trying to make an ascent of the 28,500-ft. peak in the Himalayas have vanished in a blizzard. All efforts to find them have failed.

The search, in which Pakistani troops are taking part, has been unsuccessful but so far unsuccessful. Reports reaching Rawalpindi said there was little hope the missing men could have survived the storm.

Blizzards and avalanches raged in the area for several days after they set out. At least two camps and 11 men have been swept away in the face of the storm.

The expedition is led by Dr. Keith Washburn, and it is believed that other members of the missing party include Mr. Harry Thompson, 35-year-old Cambridge scientist; Mr. Dick Knapton, 32-year-old Cambridge scientist; Mr. John Hunt, 35-year-old Cambridge scientist; Mr. Mark Powell, 32-year-old Cambridge scientist; and Mr. Mark Powell, 32-year-old Cambridge scientist.

**KRUSHCHEV MAJORITY**  
**Need to gain agreement on Berlin first**

**Mr. Nixon said in Moscow that he thought Mr. Krushchev should one day be invited to visit the United States — but that the decision to invite the Soviet leader rested with President Eisenhower.**

The United States Vice-President, who was speaking at the end of his tour of Russia before leaving for Poland, added: "While his visit would not convert me to Communism, it would serve to change his ideas. I am sure, on how our system works."

In Washington, President Eisenhower was yesterday cast to being increasing pressure to invite Mr. Krushchev to America. Observers said the policy he approved the day before thought such a visit would be a threat to make the invitation until the leaders in the Berlin situation were removed at a "Four" summit meeting.

**'To the moon together'**

Earlier, Mr. Nixon had addressed about 8,000,000 Americans in a television broadcast. In it he defended operation between the British and American people which, he said, "looks to the most important link in the exchange between regular radio and television stations and an aid to industry. He pleaded for co-operation in the exploration of outer space and a common fight against hunger, war, illness and disease. The policy he argued was for an open road to open hearts."

The United States must give serious attention to the needs of the world, including the Soviet Union and the rest of Europe, he said. He urged that the United States and the rest of the world should work together to solve the world's problems. He said that the United States would be "to the moon together."

**Laos rebels advancing**

**PAST MOVING REBELS** to be north and south of the great North Laos city of Ban Heng.

Hand Haden official said that the Communist North Laos forces had advanced to the south and north of the city of Ban Heng. He said that the rebels had captured the city of Ban Heng and were advancing towards the city of Ban Heng.

**Desire for peace**

Believing that the Soviet Premier had expressed a desire for peace, the administration would like to see the Soviet Premier express his desire for peace in a more definite way. The administration would like to see the Soviet Premier express his desire for peace in a more definite way.

**Oratory praised**

Foreign observers in Moscow were impressed by the oratory of the Soviet Premier. They praised his oratory and his desire for peace. They said that his oratory was a sign of a new era in Soviet foreign policy.

**What are the three S's?**

The three secret points about the Post Office Savings Bank of Kenya, Uganda and Tanganyika are security, service, and secrecy.

**What do you want by SECURITY?** Security means that when you put your money into the Post Office Savings Bank, it is completely safe, guaranteed by the Government, and you get 2 1/2% interest free of income tax.

**FREE OF INCOME TAX** is there to meet interest too. Can I put in my savings in cash?

You can pay in any amount up to £100 in any year in each of the Post Office Savings Banks in the three territories. The total limit in each is £2,200. This includes SERVICE certificates. What do you save by that?

You can withdraw 20% on demand at any Post Office in East Africa. Larger withdrawals can be made by return of post. Your postage is free (for Mr. Malley's Service). There are no charges involved in the operation of your account, for example, no ledger fees, correspondence or bank charges. If you put yourself a bit short of ready cash at any time to pay a bill, you can always ask us for a Special Withdrawal to make payment from us for a Special Withdrawal (as a cheque).

Your service is most important—but what is the SECURITY about?

Details of your account are not permitted to be divulged to any unauthorized person.

# CLASH

Battle of  
 unions  
 at T.U.C.

**CONFLICT** between British trade unions in the Labour Party's official labour policy and the "British" will demand that the Labour Party should support the United States Congress.

The preliminary agreement between two of the nation's biggest unions—the Transport and General Workers and the Amalgamated Engineering—building, engineering—the former agreed and in favour of British production of the work.

The inevitable clash will be a continuation of the one that broke out in 1947 when the T.U.C. was formed in the Labour Party's favour of a General Election.

"Chick" advocated the T.U.C.'s constructive policy is contained in the Labour Party's new official policy statement. This says British and other workers' manufacturers but advocates a "strong" and "independent" United States and the United States.

Only two resolutions for the T.U.C. conference, which will be held at Blackpool on September 7, give unqualified support to the Labour Party's official policy statement. Five resolutions are directly opposed to official party policy and demand British production of the goods.

Leading the anti-Communist Mr. Frank Cousins, general secretary of the Amalgamated Engineering and Building Union, said that the T.U.C. conference will be a "battle of ideas" between the Labour Party and the "British" will demand that the Labour Party should support the United States Congress.

**what makes a specialized service cheaper**

Auto electrical service sounds an impressive proposition. Oddly enough, it needn't be. It applies particularly to Lucas and C.A.V. equipment. The former, as you probably know, is the electrical equipment which is fitted to every British car. The latter is its commercial vehicle counterpart.

Diagnosis and repair of electrical faults can stump many of the technically-minded and even cause much head scratching to the average mechanic. K.R. & T. Autoelectrical service is operated by technicians expressly trained for this work, aided by modern precision test machinery.

It is cheaper to use K.R. & T. Auto electrical service because fault-diagnosis is more rapid and more quickly, accurately corrected.

## Whyka Would Benefit From North Road

It is reported that Mr. L. H. M. Whyka would benefit from the North Road. This is a matter of public interest and should be discussed in detail.

The North Road project is a major development in Nairobi. It will improve the traffic situation and provide better access to the city center.

It is hoped that the project will be completed soon and that it will bring the expected benefits to the city.

Yours faithfully,  
L. H. M. Whyka

# National Party

The National Party has announced its plans for the upcoming elections. The party is committed to the welfare of the Kenyan people and to the development of the country.

The party's platform includes the promotion of economic growth, the improvement of social services, and the strengthening of the national identity.

We are confident that the National Party will lead Kenya to a bright and prosperous future.

# Mayoral limousine: By the owner of S's City Fathers

The City Fathers have purchased a new limousine for the Mayor. This is a significant expense and has raised questions about the use of public funds.

The Mayor's office has defended the purchase, stating that it is necessary for the Mayor to travel in a comfortable and secure vehicle.

The purchase of the limousine has been criticized by some members of the public, who believe that the money should be spent on other public services.

The City Council has approved the purchase, and the limousine is expected to be delivered soon.

The Mayor has expressed his appreciation for the City Fathers' support and has promised to continue to work for the benefit of the city.

# THE CITY FATHERS

The City Fathers are the members of the Nairobi City Council. They are responsible for the governance of the city and for the approval of the Mayor's proposals.

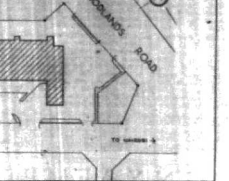

The City Fathers have a long history of service to the city and are committed to the improvement of the urban environment.

The City Fathers are elected by the voters of Nairobi and are accountable to the people for their actions.

The City Fathers are working to address the challenges facing Nairobi and to ensure a better future for all its citizens.

The City Fathers are proud to serve the people of Nairobi and are dedicated to the success of the city.

**THE "SUPER T80"**  
is plastic-cased  
to hold the COLD

THE "SUPER T80" PLASTIC-CASED Refrigerator is made of a double acid and chip proof plastic on a steel frame. Since plastic has a low coefficient factor 23 times lower than steel, the "SUPER T80" not only retains the cold better than steel-stored refrigerators, but is naturally proof against rust, corrosion, and other factors which make a refrigerator need for a special climate.

Other advantages of the chemically controlled "SUPER T80" are that it is most economical and silent. It requires no storage space amounts to nearly 3 cu. ft., in operation, its storage space amounts to nearly 5 cu. ft., and it has a special storage compartment for bottles, eggs and bottles and is finished off with a vitrolite table top, providing additional storage and working space in the kitchen.

# Joint meeting in Paris will review progress to consult NATO

## Top leaders relaxing before tours

**PRESIDENT EISENHOWER** plans to confer jointly with the top leading officials of the Atlantic Pact Organization—Mr. Lanza, president of the Nato Council, and M. Spaak, Nato Secretary-General—in Paris early next month.

This was announced in Washington by the President's Press Secretary, Mr. Hagerty, at the weekend. He added that the President was looking forward to the opportunity to review with them "important aspects of the current world situation of concern to Nato."

Mr. Hagerty also gave a date for this joint meeting, but also indicated that it would take place after the talks with President de Gaulle which begin on September 2. President Eisenhower will see Dr. Adenauer in Bonn on August 27.

Mr. Hagerty also confirmed the Italian Foreign Ministry announcement that the Italian Prime Minister, Signor Scelba, and the Foreign Minister, Signor Pella, will meet the President in Paris on September 3 or 4.

### 'Working up strength'

Meanwhile, with most of the details of the Eisenhower trip to Europe—when will be a preliminary to the American visit by Mr. Krushchev later in September—now divulged, the President is relaxing on his farm at Gettysburg. He plans to spend the rest of the month there in a "working holiday," preparing for the arduous round of visits ahead.

Mr. Krushchev is also taking a holiday—a Black Sea fishing trip—as a preliminary to the post-17th July visit to the United States. Though he likes to relax, his favorite pastime is reading, with his family and friends, and he will probably spend more time surrounded by his family and friends considering the problems to be discussed with President Eisenhower.

Mr. Krushchev has also spent some time surrounded by his family and friends, and he will probably spend more time surrounded by his family and friends considering the problems to be discussed with President Eisenhower.

# Riruta Town offers new standards of housing to Kiambu Africans

By RABE BRAKIN

When the Minister for Housing, Mr. Amaratunga, officially opened Riruta Town today he will have the satisfaction of knowing that the capable leadership his Ministry has played its part in catering for the needs of the African who owns, perhaps not only a plot of land but a freehold plot.

For the African who owns, perhaps not only a plot of land but a freehold plot, and who has a modern concrete house, with all the modern amenities for lighting and

of building Riruta town to cater for the needs of the African who owns a freehold plot.

A country report will be made by the end of the year, and will cover the progress of the project.

Each plot of Riruta is a quarter of an acre in extent. It is a modern concrete house, with all the modern amenities for lighting and

The house is three built for four of a plot, and the cost of the plot itself is between £100 and £150.

The cost of an acre will be deducted from his own plot, and the balance will be repaid to him in 10 years.

The mortgage is then repaid by £10 per year in the form of a rent, and the balance of the plot is then repaid to him.

**15-YEAR LOAN**  
He has up to 15 years to repay the loan and interest at the rate of 10 per cent.

The opportunity of increasing at this peculiarly low rate of interest, however, will soon close. A new rate of interest of 15 per cent will be applied to all plots after the 15th of January 1958.

The money had been repaid from Government funds, but such a source will not be available, and future plots will be financed by the sale of the plots at a profit of 10 per cent.

The other two largest houses built by Government in a first class estate in the East African Colonies, that is Riruta town, will start to build at the home of the members of the Kenya Legislative Council—Dr. Ikin and Mrs. George. These two houses will be built on the site of the Riruta town, and will be built to the same standard as the Riruta town.

**37 STARTED**  
Two of these residences are now starting construction. They are the houses of Dr. Ikin and Mrs. A. G. Ikin.

Two African girls show home aids

By JEAN VAUGHAN

FOR at least a year Riruta residents will have a special "one day" service to show them the advantages of electricity and also how to use it.

One of the houses will contain a demonstration room and kitchen, where two African girls will be available to give advice and help - and also to give a little hand-out.

The two girls who have been chosen for this work, Mrs. Leah Njoki Joseph, both trained at the City Council's Household Training Centre at Eastmont.

TYPICAL HOUSE Their course, lasting also six months, covered housework, sewing, mending, laundry, child care and agriculture.

Mrs. Njoki took part in an electricity demonstration at Eastmont two years ago and both girls have done a month's training at the R.A.C. and L.V. demonstration room in Nairobi.

The campaign has taken a typical basic house at Riruta, an office for the engineer on the site, the other half as a demonstration house. Here the two girls will show some of the simpler appliances and the best way to use them.

AUTOMATIC IRONS

Each house to be built will have electric lighting and a couple of power points, which can be connected to an electric fan, a vacuum cleaner, a washing machine and most of the appliances that have been used in the village since being selected.

It was shown that one of the appliances featured in the demonstration house, though others have been completed or expected to be added later. These will be a demand.

From the house, the girls will be used in the village to give advice on the use of the appliances.

One iron, a vacuum cleaner and a washing machine are guaranteed for some time, and the girls will be able to give treatment to a small number of the people of the village for the sex and maternity clinic.

For the girls to be able to take advantage of the electricity, there will be a small room for the girls to use.

These girls will be used in the village to give advice on the use of the appliances.

A typical bathroom in the new housing estate.

ECONOMICAL USE OF APPLIANCES TAUGHT

More popular than was expected, the girls will be used in the village to give advice on the use of the appliances.

Some savagely have already taken to have ordinary washing machines, but the girls will be used in the village to give advice on the use of the appliances.

Several small cookers were marked as popular. One with two hotplates, each with one burner, was a tiny grill and oven for 27s. Single hotplates, which can be put to use on different levels, are 15s.

More elaborate cookers require gas cooking, with a separate gas meter. The grill and oven, which would cost 21s. 6d., is a simple gas hot water boiler, but would cost about 30s. to install.

There will be a refrigerator, and electric washing machines are also likely to be popular.

The two demonstrators have already visited out to Riruta and started work. The plan is to start work in the village, holding demonstrations in the village, holding demonstrations in the village, holding demonstrations in the village.

# TRAINING WAY TO CO-OPERATIVE STAFF OPENED BY MINISTER

**Kenya** A wide programme of a variety of high level courses for co-operative staff in the world, the Minister for Agriculture, Mr. McKennis, said at the Kenya Co-operative Conference, Nairobi, today.

It was, however, one of the main objectives of the conference, but another to set up a Kenya Co-operative Staff Training Centre to train themselves into a co-operative society to market their produce.

Mr. McKennis was speaking in Africa's Training Centre for Co-operative Staff which is being organized by the Food and Agriculture Organization of the United Nations, the Commonwealth Co-operative in Africa South of the Sahara and the Kenya Government.

People have come from 20 African countries to attend the conference which they will receive six weeks' practical training and hear lectures by United Nations officials and ministers.

The Minister said with this the first time Kenya, or East Africa, has been chosen as a venue for such a seminar and he hoped that participants would go back to their own countries and start co-operative societies and help to develop the continent.

He recalled that he had often had to organize co-operative societies in Kenya and that he had learned a great deal about co-operatives and a lot about the Colony.

**Be smart in town—like me!**  
**Always use Shell Multigrade Oil**  
 What's a smart girl like her doing in a motor oil advertisement? Well, why would you rather look at a smart girl or a can of oil? Secondly, it is the smart, up-to-date types who use this new oil called Multigrade. And what's Multigrade got that other motor oils don't? Plenty! Multigrade's a special blend of oil that's tough without being thick. Therefore you get easier starting. You get longer battery life. You get instant lubrication from start-up—before your engine needs protection. And, it's stop-start town driving there's another big Multigrade advantage: The better performance during each warm-up period gives you useful savings in petrol.

# Family housing at Mvuta

## MINISTER OPENS TOWN

**MVUTA**, recently planned to provide a greater number of houses for African living in the Mvuta area, was opened officially yesterday by the Minister for Housing, Mr. Amalamba.

Chief of the Mvuta Housing Board, Mr. J. C. Kibira, Minister for Central Province South, said people living at Mvuta, most did not realize that money to buy and build the houses had been lent to them and not given.

Mr. Amalamba said the idea of building Mvuta was approved in 1938. The intention was to provide good housing for the people living in the Mvuta area. The houses were built in 1940 and 1941.

Standard types of houses had been designed from these a choice could be made. Each design was made of construction in one, two or three stages, according to the financial capacity of the owner.

In addition, mortgage facilities of up to 75 per cent of the building cost, repayable over a period of up to 31 years, had been made available to plot holders.

Plot owners were allowed to buy larger plots than the sizes of the standard design, and these had just been assigned for Dr. Kibira and two other were being built.

Exchange possible. However, as money shortage for this scheme must be regarded as possible and not spent on a few large and expensive "special" houses, Mr. Amalamba added.

In the course of land consolidation, Mr. Kibira who visited the Mvuta area to exchange farms and land for plots in the area which were to become the townships. Many people who did this had more than one plot at Mvuta.

A group of limited means could make up a house of two rooms at first, and then add to it as his means improved, or when an additional loan was granted.

Mr. Amalamba said a down payment of £50 and four repayments at the rate of 25/- a month for 12 years would buy a house with two rooms, a kitchen and a small bathroom, costing 2,275/-.

Tenders for shops. "This should encourage me to try," he remarked. "Let me know what has done well."

The scheme was started nine months ago. Thirty houses were built and 21 more were being built.

## TOWN COUNCIL FORMED FOR CITIZENS' WELFARE

Another step now planned and families should be placed in the next few days for night sleep with living accommodation.

It is a healthy development that more people in the lower income groups will come down to build small, but improved houses and later add to them as their financial position improves.

After thanking the East African Power and Lighting Co. for the installation of electricity, the Minister gave a word of warning.

Prompt repayment. The granting of further loans will depend on residents paying up their electricity and water bills promptly.

Mr. Kibira said that at Mvuta they were trying to establish a family type of house, which would give African people the best way of living, combined with the best of the European and American systems.

It was especially an African project and African people should be encouraged to build their own houses.

They would not long be in the position of being dependent on the Government. The Government should be able to help them in their own way.

#### Why the Yashica 44?

Because this outstanding little camera offers you all the advantages of a twin-lens reflex camera in 35% smaller, 50% lighter and much less expensive to operate.

Particularly ideal for casual work, the 44 gives 11 square transparencies in a 127 spot. Whilst these are larger than 35 mm. transparencies—and therefore give better picture quality—they can be secured for just standard 35 mm. projector. The Yashica 44 now gives the opportunity of taking colour slides only for 25 mm. cameras. Cash price £20.

Terms can be arranged. Phone us at 2084, or if you can't come to Nairobi, and we will be only too pleased to give you further details regarding this remarkable camera.
