At Trondheim, writes on June 14 it rained thousands of long frogs. Mr. E. T. Ellis, senior attendant of the bathing pool, was watching swimmers when he began to rain, and he saw thousands of frogs dropping on him from the sky. They landed on the grass behind the bathing enclosure. Mr. Ellis and his wife began swimming in the bath, but an extra dose of chloride in the water drowned them. Others could be seen floating down-stream in the River Lis, with an old motor law on the bank.

COMPULSORY DAIRY CONTROL BOARD

To Cover All Forms of Dairy Produce

The standing Board of Economic Development has requested the Government to enact legislation to provide for a compulsory Co-operative Association for the sale of all forms of dairy produce under the supervision of a Dairy Industry Control Board.

The Development Board considers the settlement of this long outstanding question of importance not only to the development of the dairy industry but also to the interests of public health. It is stated that the Commission on the effect that if the responsible authorities are not satisfied with the production of the "Milk" population will drink, the standard of health of the nation will be maintained. It is further stated that the Government should be satisfied with the production of the "Milk" population will drink, the standard of health of the nation will be maintained. single day on which we did not witness the "hanging" of some of our prisoners. The number of those of those hung whipped. The bodies were left to rot and inside to work were sent to the hospital, but were not allowed to leave. The doctor, Dr. von Heide, and Dr. Breyer, did not treat patients and a few fatal cases of dysentery occurred after these in the camp. The death rate was of course high—10-15 per cent daily. The prisoners suffered into Sachsenhausen camp after they had been there for some months later—that is, in February 1945. On 18 December, 1944, when the temperature dropped sharply, the prisoners were taken to the barracks for the hands, feet and ears of the prisoners were frozen. They did not receive medical attention. These prisoners were taken to the camp after being discharged. It was not until the middle of December that the camp commandant allowed the prisoners to wear gloves and socks protectors for their feet, and to wear shoes. In a number of cases the rooms were left without heat, the temperature increasing the number of frostbite and other ailments.

Prison Mortality

Everybody in the camp knew that the prisoners were not to be taken with respect. For ever since the war began, the prisoners were "killed" which is separate from the rest of the territory. Mortality was kept in solitary confinement, and under constant observation, and only allowed to walk for half an hour in the morning. KENYA YOUTH

To the Editor, "E.A. Standard." Sir—In Kenya there is a general feeling of discontent among the youth. The youth here are not only dissatisfied with the present government but also with the future. They are not only dissatisfied with the present government but also with the future. They are not only dissatisfied with the present government but also with the future.

Last week of the annual conference of the House of Commons and the House of Lords. The House of Commons has passed a bill for the purpose of amending the law relating to the administration of justice in Kenya.

England never despised the fact that she was a great power. She has always been a great power. She has always been a great power. She has always been a great power.

STOCK INDUSTRY PLAN MAKING PROGRESS

Liebigs Re-opening On July 17

The first African Standard is informed that Government's programme to help the farmers in the drought-stricken northern area is steadily going ahead.

It is anticipated that the Liebigs factory will re-open on July 17, although production will be slow during the first few working days, to the end to train the new labour force that will be engaged, the factory should reach its normal capacity in the course of three or four weeks' working.

Large scale operations are available for susceptible grasses. Research is being made to compile a list of the most suitable grasses for the area in the drought area and proposals are being made for their introduction for sale. At a later date, it is likely that the Government will be made to make the necessary arrangements to bring the past few weeks' market for grass seedling stock has been good, and normal buyers are not complaining of any shortage of their farms to re-plant. Blackwattle is being planted in large quantities in the hope of bringing large numbers of the 'Yule Nana' and similar areas into production, and the Government is looking to the introduction of the 'Yule Nana' and similar areas into production, and the Government is looking to the introduction of the 'Yule Nana' and similar areas into production.

FRESH ISSUES CAUSE HITCH IN MOSCOW TALKS

But No Ground Lost

Hope of an early completion of the anti-aggression talks in Moscow appear to have been optimistic. Possible, it was reported, has raised new issues of importance, and these will probably necessitate continuation of the negotiations for some time.

The Times, however, points out that no ground has been lost and that the attitude of the negotiating Governments remains favourable on essentials.

Indignation Over Bomb Outrages

Public opinion in this country is very indignant over the bomb outrages, and the bombing of Ploesti City on Saturday night when 15 people, including a child, a crippled woman, a bus driver, and a taxi driver, were injured had brought this indignation to a head.

Probably we should understand the point of view of the ERA, we would find that these bombs had been dropped in a most unfortunate manner. It is simply wartime public opinion that has to be met. It is not possible to do what is best. If the majority of Irish people want a united Ireland, they must have it, but we do not think that they should be compelled to suffer from the mistakes of Mr. De Valera's policy of a body which has been formed by the IRA, and we are not an extremely well-organized body. We are not a well-organized body. We are not a well-organized body.

My Problem

As my wife is a young girl, I am very anxious to give her the best possible education. I have been thinking of sending her to the United States, but I am not sure if it is the best thing to do. I am not sure if it is the best thing to do.

The Lucifer Trophy

CONSISTENT GOLF BY WINNER

[P. 1000-1001.] London.

For the second successive year the Lucifer Overseas Golf Trophy has been awarded a "winner" from the Colony. The trophy was presented with one from South Africa. On the first previous occasion, the trophy was won by the Orange Free State Club, who had not done so since the trophy was first presented in the final at Walton in 1926.

Last year L. V. Bly (Mombasa) was the winner, playing off a handicap of 6. A Kenya win, in the face of the increasing popularity of the trophy, was made possible by the fact that the trophy was awarded to the club which won the trophy in the last year, which was the Orange Free State Club.

The winner, Dr. F. H. McCoy of the Orange Club of California did not play the trophy last year, but the trophy was awarded to the club which won the trophy in the last year, which was the Orange Free State Club.

The qualifying rounds, in which 228 of the entrants played, took place at Stoke Poges, near Park, near the City, on Saturday and Sunday. The final, which was played on Sunday, was a match between the Orange Free State Club and the Orange Free State Club.

Dr. McCoy's record was the first in the history of the trophy. He played the trophy in the last year, which was the Orange Free State Club.

The trophy was awarded to the club which won the trophy in the last year, which was the Orange Free State Club.

ENTERPRISE CUP FINALS

Hard and Fast Matches Likely

[P. 1000-1001.] London.

The semi-finals and finals of the Enterprise Rugby football Cup will be played this week-end at the Parklands ground, the semi-finals taking place at 2.15 on Saturday and 3.15 on Sunday and the final on Sunday at 4.30 p.m. on Sunday.

Edmore and Mombasa, who have retained the last three times, have been seeded and the draw has been made in Mombasa's "invitation" to the Orange Free State Club, which is seeded as the last and only victor was in 1937, when Charles Wright of Hoey's bridge won the Trophy.

NO NEED TO CLEAN YOUR RIFLE IF YOU ALWAYS USE '22 I.C.' NON-RUSTING AMMUNITION

and what is more, your barrel will last a lifetime

★ We have had a rifle used for a year. Every week an average of 200 rounds of '22 I.C.' NON-RUSTING AMMUNITION were fired. It has been fired through it. After firing 50,000 rounds in 1000 shots it was as good as new.

These facts relate to the rifle that the average club shooter should use. It is a BARREL OF AT LEAST TWENTY YEARS OF AGE.

THREE KNOTTY PROBLEMS FOR THE CABINET

DRAMATIC STORIES TOLD BY SURVIVORS OF THE THETIS

The Misses... relatives on board at the funeral service in Liverpool Bay.

Tragedy Of A Door That Jammed

A landing-stoker on the ill-fated Thetis—the last of the crew to escape—told a graphic story at the inquiry in London of his discovery that the submarine was filling with water and later how four men perished in the escape chamber.

Tragedy... The legal representatives of Messrs. Cammell Laird, the builders of the Thetis, asked him whether, if the tubes were full with low water, to open the rear door would be an act of mutiny... The Thetis... showed the tube to be empty though when it opened the door it proved to be full. He agreed that this could mean that the door jammed and said he had not noticed a special oil which was provided for clearing the rock if it was closed.

Neutral States And Anti-Aggression Negotiations

DANZIG AND TIENSIN SITUATIONS

EVENTS IN MOSCOW, DANZIG AND TIENSIN, WHICH HAVE LATELY ENGAGED THE ATTENTION OF THE BRITISH CABINET FOR MANY ANXIOUS HOURS, ARE STILL THE MAIN TOPICS OF THE INTERNATIONAL SITUATION IN LONDON AND OTHER CAPITALS.

Agreement in principle has now been reached on the defence of the Soviet Union. Danzig is described as being in a state of armed truce while Tiensin is awaiting the opening of the Anglo-Japanese discussions in Tokyo.

London, July 6. Three major questions engaged attention of the British Cabinet at two meetings on Wednesday. Danzig, Tiensin and the situation in Moscow. The Foreign Secretary, Mr. Simon, said that the British Government was in a state of armed truce with Danzig. He also said that the British Government was awaiting the opening of the Anglo-Japanese discussions in Tokyo.

Danzig

On the Danzig issue the British Cabinet considered whether Great Britain and France should advise themselves with the representatives of the Polish Government.

Tientsin

On the Tientsin issue the British Cabinet considered whether Great Britain and France should advise themselves with the representatives of the Japanese Government.

Moscow

The Foreign Secretary, Mr. Simon, said that the British Government was in a state of armed truce with Danzig. He also said that the British Government was awaiting the opening of the Anglo-Japanese discussions in Tokyo.

Governments' Attitude To Colonial Claims

There was a further reference in the House of Commons on Wednesday to former German Colonies now administered by various Governments under mandate.

A question was asked in the House of Commons on Wednesday by Mr. Chamberlain, in relation to the German Colonies, which had been administered by the Governments of Britain, France and Japan respectively.

The Under-Secretary for Foreign Affairs, Mr. Simon, said that the British Government was in a state of armed truce with Danzig. He also said that the British Government was awaiting the opening of the Anglo-Japanese discussions in Tokyo.

new SHELL MOTOR OIL

New Shell Motor Oil contains an exclusive mineral oil concentration which makes it cling to the metal parts of your engine, whether it be standing, moving or running.

No longer, therefore, does corrosion in an engine—no harmful wear from "de-rusting"—no breakdown of the oil under high running temperatures.

"TOKKY—OUR BUSH-CUCKOO" by Dorothy Dent

TOKKY joined our family in an unusual way. One morning we were strolling on the edge of the forest after tea...

After that we had a happy interval. Tokky was becoming ever more a member of our household.

One of our wood cutters told me that he had seen Tokky in the forest. He said that he had seen Tokky in the forest...

He was sitting under a tree when he saw Tokky. He said that he had seen Tokky in the forest...

I FOR ONE... On the Use of Pictures

LOOKING back at the count- less rooms one has known, it is often impossible to remember more about them than their general atmosphere and, here and there, some significant detail sufficiently vital to make a lasting impression on the mind.

Most frequently in the pictures that stand out in these recollections, either for some gripping beauty of their subject-matter or for their quality. Whatever it may be, a picture cannot help but make a very definite impres-

sion on a person. The first room to impress me as a child was one that I saw very old-fashioned and very comfortable. It was a room of a very old-fashioned and very comfortable...

One house, still in use, has been changed by the use of extremely few pictures, but pictures to draw attention to the proximity of the sea. It is not for me to say whether it is good or what it is. It is only the point that I wish to make...

I remember distinctly a lovely picture that I saw in a room. It was a picture of a very old-fashioned and very comfortable room. It was a picture of a very old-fashioned and very comfortable...

It is not for me to say whether it is good or what it is. It is only the point that I wish to make. It is only the point that I wish to make...

though in my attitude in respect of German colonial claims," said the Governor-General. "I should like to repeat that I have always been an ardent supporter of the German colonial policy...

"It would be a big thing for our Government of Pretoria to be starting along in that line." The Governor-General's remarks caused some surprise here. His previous speech had definitely suggested that other African territories should be handed to Germany in law. When he has next returned, he will be asked to give his views on the subject...

MOTURING AND AVIATION SECTION

By General Jose Miaja THE DEFENDER OF MADRID

Experience Of Mechanised Warfare

Man Remains the decisive factor in War

Part II
If the scale on which the mechanisation of means of combat was applied in Spain-permitted of any conclusion as to their efficiency, this would definitely be unfavourable. I believe that no one would dare to state that motorised columns, aviation units and tanks have ever constituted decisive factors. Starting from my personal experience, I should be tempted to conclude that mechanisation had proved a hindrance; but I must abstain from doing so, not only because I cannot believe that the Italians and Germans wished to push the experiment to its final issue, but also because their attempts were always so lamentable that it is not logical to suppose that their sole object was to strike the imagination by the use of which they were fully aware of the inefficiency.

For instance of propaganda, the Italian technicians have given a false picture of the scientific and modern operations which they intended to employ to capture Santander, under the leadership of General Berti. This is all very well, but when we see that the operations were so lamentable that they were fully aware of the inefficiency.
