

On 20 June 2014, the Successful African Firms and Institutional Change (SAFIC) research project held a whole day workshop at the Nairobi Safar Club. The team workshop focussed mainly on analysing data from the project's ongoing food processing and food processing equipment manufacturers firms survey.

Present during the workshop were Prof. Dorothy McCormick, Dr. Paul Kamau, Dr. Radha Upadhyaya, Mr. Samuel Balongo and Mr. Herbert Wamalwa. The team also spent time to plan for case studies which shall constitute the next phase of data collection.
