

wPOWER Hub holds a Curriculum review and harmonization workshop at the GBM Langata Training Center

Prof. S.G. Kiama giving opening remarks during the wPOWER hub curriculum review and harmonization workshop.

The wPOWER Hub has been developing a trainer's course on sustainable clean energy entrepreneurship through a consultative process with partners and stakeholders. The first meeting was a stakeholder consultative forum followed by a meeting with partners to develop the details of the various modules, which would form part of the curriculum. To bring this process to completion, anchors were identified and tasked with the role of developing content for each the modules and with them having finalized on this, this workshop was held on 4th July, 2014 to review and harmonize the modules and content developed.

Ms. Wanjira Mathai facilitating the review of Environmental Stewardship module.

Environmental Stewardship critical reviewers; from the left, Peter Ndunda, Clinton Foundation, Charles Mwangi GBM, Mercy Karunditu, GBM among other participants.

Leadership module critical reviews; From left; Dr. Kiemo, UoN, Kinyanjui, GBM, Kahuho Mathai, GBM, Hulda Ouma, UN Women(hidden), Njoki Njehu and Lilian Muchungi.
