

## Website Item - Induction of 2015 MSc Students

The third intake for MSc Distributed Computing Technology and MSc IT Management programmes of the School of Computing and Informatics were taken through an induction session on Monday May 11, 2015. The students were taken through the programme structure, regulations and content. The research expectation of these students is high and they were introduced to the research activities of the School. Furthermore, they were sensitized on the University QMS, structures and relevant policies.
