

The third international University of Nairobi and Kenyatta National Hospital conference ongoing

The third international conference of University of Nairobi and Kenyatta National Hospital kicked off on 10th June 2015.

As two leading regional health care providers they play an important part in the generation of health related research which goes to influence policy.

As a result the chosen theme for the conference is %e research as a drive for Science, technology and innovation for health+

The conference was well attended and participants came from international and local institutions.

The event was opened by the Principal of the College of Health Sciences, Professor Isaac Kibwage, also present were the CEO of the Kenyatta National Hospital, represented by Dr. Monda and County Secretary for Health, Meru, Dr. William Muraah.
