

ICT Director launches a drive to have google scholar profiles for university staff at CAV

Dr. Ibrahim Otieno, Director ICT University of Nairobi on 25th March launched a drive to have all staff profiles in google scholar to improve excellence in the world. He reiterated the fact that the University is in a competitive world that relies heavily on the branding and image promotion. The staff of the University are urged to create google scholar profile in order to improve their world presence in the scholarly world. All researchers are welcome to sensitization workshops going on throughout the week ending on 27th March 2015. A training manual for the same can be accessed through University intranet.
