

DEPARTMENT OF LARMAT OUTREACH ACTIVITIES- KWALE COUNTY

Department Chairman and Principal Technologist visited Women's project in Kwale County being funded by KECOSCE (*Kenya Community Support Centre*).

KECOSCE supports women groups in growing and processing aloe and products from milk. In both projects a lot of firewood is been used. The Team visited the area to assess the extent of deforestation and also come up with ways and means on how the area can be planted with suitable tree species. This is part of the College cooperate responsibility as concern environmental conservation.
