

## **School of Biological carries out Internal Audit**

### ***Lead Auditor, F. Juma and Ms. Elsa Auma during School of biological audit.***

The school of biological sciences was audited by the college internal auditors on October, 23, 2015. The objective of the audit was to determine the effectiveness of the University QMS and assessing areas which needs improvement. Led by the Lead Auditor Mr. F. Juma, the internal auditors reviewed the school's performance in areas of documentation, quality objectives and human resources management among other areas of importance to the school.

Among those present during the audit process were: Prof. P.N. Ndegwa, School of Biological Director, Ms. Elsa Auma, Auditor and other administrative staff.

The school hopes that the outcomes of the audit will help it close all non conformities that were identified in the 14<sup>th</sup> Internal Quality Audit and KEBS Surveillance carried out early 2015.
