

THE VISIT TO SAMEER AFRICA LIMITED

Owing to the invitation by Sameer Africa Limited, UON Mechanical Engineering Students paid a visit to the Company. The tour was aimed at aiding the students to correlate classwork and practical industry work. The students were taken through entire Yana tyre manufacturing technology as they visited various sections of the plant.

Sameer Africa Limited is the leading tyre manufacturing and marketing company in East and Central Africa. Sameer Africa's product range currently includes: passenger textile and steel belted radials, 4x4 tyres, light truck radial and bias, truck and bus, agricultural, industrial and Off-The-Road tyres under the brand name, Yana. Sameer Africa produces both tube type and tubeless tyres and also produces tubes and flaps. Sameer Africa Limited also distributes the world renowned Bridgestone tyres in Kenya, Uganda, Tanzania, Rwanda and Burundi.
