PREFACE

This is the seventh report in a series on rural housing conditions in various parts of Kenya. It is the result of the research co-operation between the Housing Research and Development Unit (HRDU) of the University of Nairobi and the Department of Geography of Developing Countries, University of Utrecht, The Netherlands.

The fieldwork in Nyeri District was carried out by Ms. Marjolijn Sonnema and Mr. Vincent Tiel Groenestege. They were in various ways assisted by Mrs. R. Kamau and Mr. Mulili of the HRDU, and several other members of the HRDU staff. Peter A. Makachia, a student in the Faculty of Architecture, visited the research areas in Nyeri District and made drawings of various types of houses.

In Nyeri District considerable assistance was given by various officers of the district administration and by the interpreters. Peter Peterson Mbau, Joseph Karume Jutichus, Francis Mwangi, Anthony Githae, John Ndirangu Gitahi and Joseph Maina. Furthermore much appreciated assistance was given by M. Chege, S. Wanjiku and family, family S.S. Paul, Mr. and Mrs. Kanyi and Mrs. V. Wagothi Githinji.

Finally, the data collection could not have been carried out effectively without the help of the chiefs of the various locations in the survey, and the people who patiently replied to the questions in the questionnaire. They all contributed in various ways, to the picture on rural housing conditions presented in this report.
